VOL. XII. NO. 106. SANTA ANA, CALIFORNIA, TUESDAY EVENING, APRIL 3, 1917. 50 CENTS PER MONTH

LA FOLLETTE BLOCKS CONGRESS ACTION ON WAR BILL

Kaiser Plans Protest to Neutrals Over U. S. Step

WOULD LIKE TO HAVE COMPANY L STRICTLY S. A. FORCE

Men of Experience In Local Organization Serve to "Stiffen" Command

HOLDERMAN'S BOYS PROVE EFFICIENCY

Put Up Shelter Tents At Arcadia In 55 Minutes, Beating Other Companies

Captain N. M. Holderman of Company L wants Santa Ana men to bring his command up to war strength. Word received in Santa Ana today from the camp at Arcadia states that Company L would have no difficulty in at once securing the additional fifty men wanted, provided that men not from Santa Ana or Orange county were given preference. But it is from Santa Ana and vicinity that Captain Holderman wants, inasmuch as the advantages enjoyed by the men joining at the present time will be much greater than will those experienced by men joining other companies that will be formed.

There are several score of men now with Company L who saw service on the border and these men serve wonderfully to "stiffen" the organization. The fact that it took Company L but 55 minutes to pitch its shelter tents at Arcadia Saturday afternoon, while it took two other companies practically the entire afternoon to do the work, demonstrates conclusively the advantage that accrues to a militia company in having a large number of seasoned and experienced men in the ranks. There are certain prescribed regulations that govern the pitching of the tents and the men familiar with these regulations are naturally able to "beat" the inexperienced men in efficiency. Rules making for efficiency govern every other branch of activity in the militia service.

Off on Right Foot

The regular army and the national guard will be the first to be brought up to full war strength and men enlisting at the present time will "get off on the right foot" as concerns both equipment and training.

It is learned that any man in Santa Ana or Orange county desiring to enlist can apply for examination at the camp of Company L at Arcadia. Those desiring information may obtain it by inquiring of F. L. Worden, 503 North Sycamore. Enlistments will be made at the camp up to the time that Company L is ordered elsewhere, which it is expected will be very soon.

BIG PATRIOTIC RALLY AT ANAHEIM TONIGHT

Tonight citizens of Anaheim will show their support of the government in the present crisis at a big patriotic demonstration to be held at the Library building.

Every effort is being made to make it the greatest patriotic meeting ever held in the Mother Colony. Merchants are showing their approval of the plan by displaying the colors at their places of business. A splendid program has been arranged, in which the Anaheim band, the Anaheim Musical club, the Temple Square Quartet and other musical organizations will participate.

Several speakers who are known for their patriotic orations have been secured.

Residents of all parts of the county are invited to join in the demonstration.

LOS ANGELES, April 3.—With half of the infantry companies, the machine gun section and the headquarters organizations at the Seventh Regiment's mobilization point, regular army officers are today preparing to subject the men to physical examination, preparatory to mustering them into federal service. Owing to the fact that a big percentage of the men successfully passed federal examination last summer, when called to the border, it is not believed there will be very many militiamen rejected.

Major L. H. Tefft, Army Medical Corps, is the examining officer. Capt. R. S. Hartz, 21st Infantry, is to muster the men into service. Work of putting the camp in ideal sanitary condition occupies the guardsmen today.

Meanwhile, Seventh Regiment organizations not at the mobilization ground are working hard to recruit to full strength. As fast as the minimum strength is reached, the companies are ordered to entrain for the rendezvous.

Company L Appeals For 50 More Men

NOW IS THE TIME TO ENLIST!

The United States and Germany are at war. Never in the history of the nation has the call for men been so urgent as now.

Company L needs more men. Captain Holderman is redoubling his efforts to bring his command up to war strength.

Read the following appeal, written at the Company L camp at Arcadia, and then enlist! Do it now!

Arcadia, Sunday, April 1, 1917.

Editor Register:

Please arrange for an appeal by the paper and for an effort by the Chamber of Commerce to obtain enlistments. The Elks would undoubtedly be glad to help. We need fifty men to have war strength. What young man of Orange county would not prefer to join his home company when half its members are veterans of five months service on the border rather than enlist in a completely green volunteer company in case a state of war is declared to exist. Besides our officers are experienced in the handling of the company under service conditions as volunteer officers might not be. The Captain asks me to make this request. We ought to have the men and would consider it a great service if you would make the effort to obtain the men lacking.

Respectfully,
PRIVATE D. E. KEECH.

Recruiting Station For Navy Is Opened

The President of the United States, and Secretary of the Navy Daniels expect Santa Ana and Orange county to furnish their quota of men for service with the sea forces of the nation.

The Los Angeles District, of which Orange county is a part, must supply 200 men of the 38,000 wanted at once by the navy to man ships about to be put into service and for ships held in reserve.

A navy recruiting station has been opened at 106 1/2 West Fourth street, above Mater's drug store. Chief Electrician G. G. Graves, appointed to special recruiting duty, is in charge of the station.

Graves states that navy recruiting in Los Angeles is going at top speed, so rapidly, in fact, that the services of girls who volunteered to do clerical work were accepted to help take care of the rush of enlistments.

"There are many advantages in enlisting in the navy and I am quite sure that there are many young men in Orange county who if these advantages were explained to them, would join the navy," said Graves today.

"Santa Ana and vicinity must do their part. The need for men is urgent. War is here and it is the duty of every citizen to do all in his power to aid the government to prosecute the war to a victorious end."

Seeks 1000 Members For S. A. Red Cross

The Santa Ana branch of the Red Cross Society is going to appeal to the patriotism of local people to assist it in securing a larger membership and placing the branch in position to do its share in helping the National Red Cross in the work it is now doing and in prospect under existing conditions. Those at the head of the local branch want 1000 members.

A rousing patriotic meeting will be held at Elks hall Friday night, when a man thoroughly conversant with the working features of the Red Cross will be here to explain the methods, etc. This meeting was originally scheduled for Thursday night of this week, but has been changed to Friday night because the speaker wanted could not be secured for that evening.

T. F. McCrea in Charge

T. F. McCrea, who had experience in Red Cross work during the Boer war, and who is an organizer of branches, is the man who will be here to give instructions in what the Red Cross does, is doing and in what should be done here to make the branch the success the local people want it to be. McCrea has an engagement for Thursday night, and therefore the date here had to be changed.

The Choral Art Society will furnish music for the occasion and there will be other entertaining features on the program.

Saturday the first organized effort to secure membership will be made. Six subscription stations will be established on the business streets of the city. The stations will be tables placed on the sidewalk, in various sections of the business district. Each table will be in charge of two girls from the High School, with a member of one or more of the Parent-Teacher Associations of the city in charge of the girls.

To Take Applications

There will be no house-to-house campaign next Saturday. Saturday's efforts being only to take the applications of those who wish to volunteer as members.

The membership fee is \$1 per year, with \$1 extra to those who wish to subscribe for the Red Cross Magazine.

When the local branch is completely organized classes will be formed for instructions in first aid assistance to injured. This will prove an instructive course, and will be of great benefit to those taking it whether they are called into active service or not. It will give instructions that everyone should have for personal information as to the proper care of wounds.

Fullerton has already organized a class in first aid, with Dr. W. H. Wickert as instructor. Dr. Laue has been chosen as examiner and Mrs. Lloyd Pendleton president. No person who has not attended at least 80 per cent of the lectures will be eligible for examination. The first-aid course consists of ten lessons and demonstrations of one and one-half hours each. The first-aid course, by education of individuals, has for its purpose the prevention of accidents, but recognizing that accidents occur in spite of precautions, seeks to aid by teaching emergency measures to laymen so that patients will be brought to surgeons in better condition, and thus give the latter's skill an opportunity to be of more immediate benefit.

Violent German assaults have been repelled by the Russians.

WASHINGTON, April 3.—A high official today said that Germany can establish a sound peace background by granting universal manhood suffrage and placing the cabinet ministry under the people's guidance.

28 AZTEC VICTIMS ARE STILL MISSING

WASHINGTON, April 3.—Twenty-eight persons are still missing from the torpedoed American steamer Aztec, according to a dispatch from Ambassador Sharp to the State Department today.

One boat has been picked up with nineteen survivors, who were landed at Brest yesterday afternoon.

LONDON, April 3.—The British continue their advance toward St. Quentin, taking a town five miles northwest of there. Snowing has resumed and the French are in a state of inactivity.

TEUTONS HOPE APPEAL WILL INFLUENCE S. AMERICA

Wilson Has Served Notice to Dual Monarchy That It Must Keep Hands Off

J. S.-AUSTRIA BREAK IS HELD UNAVOIDABLE

Central Powers Planning New Peace Move, Declares Berlin Paper

AMSTERDAM, April 3.—Germany is contemplating a formal protest to all neutrals against America's declaration that a state of war exists, according to Berlin dispatches today. It is stated that by such an appeal Germany hopes particularly to influence South American countries in her favor.

AMSTERDAM, April 3.—The Berlin Lokal Anzeiger states that the Central Powers are planning a new peace offer. An important conference is being held at German headquarters.

WASHINGTON, April 3.—It is generally believed here today that a break with Austria is unavoidable.

A diplomatic breach with the dual monarchy is by no means avoided, according to the general view here. Instead, in postponing discussion of the situation, President Wilson merely served notice that unless Austria keeps hands off in the war between the United States and Germany, she, too, must come under the ban.

WASHINGTON, April 3.—The feature that shows the greatest sign of temporary trouble is the matter of raising revenue. President Wilson urged that the nation, insofar as possible, pay for it now, in the present generation.

The fact that the Republican committee assignments were still awaited made it impractical to proceed with committee work on finance and other vital matters. But the minority proposed to make its choices today and from now on there will be no delay in furnishing the "sinews of war."

Anticipating that the Republicans would make the same assignments as last session on the foreign committee, Chairman Flood of the house committee, called that body to meet at 10 a. m. He proposed to discuss the war resolution fully, urge a favorable report hastily—and get it.

As matters stand, the resolution may come back to the house for consideration by night, though Chairman Flood said it might be Wednesday before the house placed its approval upon the resolution and got the war really under way.

ALLIES CLOSING ON ST. QUENTIN

BY WILLIAM PHILIP SIMMS (United Press Staff Correspondent)

WITH THE BRITISH ARMIES

AFIELD, April 3.—The British forward movement around St. Quentin was reported today to have taken the town of Maiseimy in its enveloping grip.

Northward around Arras, the town of Henin was occupied in other advances.

LONDON, April 3.—Germans apparently realized today that St. Quentin was doomed to fall. Battle front dispatches detailing Field Marshal Haig's tremendous thrust on the town, told of the smoke of fires seen over the village and of other preparations indicating the Teutons were following the same tactics of destruction observed in their western front retreat. But it was conceded the Germans would offer tenacious resistance rather than mere abandonment of the position.

Military experts today figured the British forces within two miles of the city and on ground extremely favorable for further progress. From now on the fighting to the town will be downhill.

German long range guns, of heavy caliber, were in action today.

CURATES REPLACING TEACHERS IN LONDON

LONDON, April 3.—To take care of the shortage in teachers which faces schools it is proposed to utilize the services of curates in the elementary grades, having them teach everything except Scripture.

Pacifist's Tactics Compel Upper House Delay Till Tomorrow

WASHINGTON, April 3.—Pacifism by Senator La Follette today blocked Congressional action on the state of war resolution until tomorrow, through a parliamentary maneuver.

When the Senate Foreign Relations committee reported the resolution out La Follette demanded regular order of business, halting action on the measure when he refused to withdraw his demand. Floor Leader Martin refusing to consider other business, the Senate adjourned until tomorrow.

The House committee had postponed action until tomorrow, hoping to ratify Senate action. The House plans quick action to show the world that the Nation is with President Wilson and ready to fight to the last trench.

Senator Chamberlain today introduced his compulsory military training bill.

WASHINGTON, April 3.—The Senate foreign relations committee today reported out the administration state of war resolution, amended so as to strengthen its entire text, with but one dissenting vote—that of Chairman Stone.

The President is directed to employ the entire naval and military forces of the United States against Germany and "to bring the conflict to a successful termination."

"All of the resources of the country," the resolution ends, "are hereby pledged by the Congress of the United States."

BY CARL D. GROAT (United Press Staff Correspondent)

WASHINGTON, April 3.—Congress started today to make war with Germany. Foreign committees of both the house and senate met this forenoon to consider the "war resolution." Other committees tentatively considered what shall be done with the appropriations, raising men, providing means of prosecuting the war with vigor, checking German espionage and intrigue within this nation and of so censoring news of the struggle that this nation's enemy may not be informed in advance of United States moves.

Congress may debate considerably some phases of President Wilson's recommendations. But it will be a congress united on the central theme that war is here and that it must be waged to the last man and the last dollar in order that democracy shall not perish from the earth.

The matter of extending credit to the allies will probably cause extensive discussion. Congress received that suggestion last night with only lukewarm applause. But if the loan is not charity then the congress will doubtless approve of it.

Revenue

The feature that shows the greatest sign of temporary trouble is the matter of raising revenue. President Wilson urged that the nation, insofar as possible, pay for it now, in the present generation.

The fact that the Republican committee assignments were still awaited made it impractical to proceed with committee work on finance and other vital matters. But the minority proposed to make its choices today and from now on there will be no delay in furnishing the "sinews of war."

Anticipating that the Republicans would make the same assignments as last session on the foreign committee, Chairman Flood of the house committee, called that body to meet at 10 a. m. He proposed to discuss the war resolution fully, urge a favorable report hastily—and get it.

As matters stand, the resolution may come back to the house for consideration by night, though Chairman Flood said it might be Wednesday before the house placed its approval upon the resolution and got the war really under way.

18 MILLIONS TO BE SPENT ON NAVY YARDS

WASHINGTON, April 3.—The Navy Department will immediately spend the \$18,000,000 emergency appropriation for increased navy yard facilities as follows:

At Portsmouth, N. H., facilities for the immediate construction of ten submarines.

New York, one slip for the construction of a capital battleship and additional machine shops, \$3,000,000.

Philadelphia, two slips and shops, about \$5,000,000.

Norfolk, one slip and shops, about \$5,000,000.

Puget Sound and Mare Island, ship ways (number and amount not stated).

Nothing was given out as to a station on the Great Lakes.

BAR L. A. TEACHERS FROM CRITICISM OF WILSON

LOS ANGELES, April 3.—Insisting that no disapproval of President Wilson or Congress be voiced in the schools, City Superintendent Shiel today notified all teachers that such criticism before the pupils will not be tolerated. This action follows reports to the board of education that such criticism has been expressed regarding the present crisis.

1,000 BRITISH NURSES WIN HONORS IN WAR

LONDON, April 3.—A list of names mentioned by the War office this week for noteworthy services to the country included exactly one thousand nurses.

GIANT ARMIES OF MILLIONS OF MEN, IS U. S. PLAN

Committees Consider Various Steps to Prosecute Aggressive Campaigns

PRESIDENT'S SPEECH IS HIGHLY PRAISED

United Congress On Theme of Driving War to Victorious End

WASHINGTON, April 3.—Three million to five million men will probably be raised for America's armies.

At least one cabinet member wants 3,000,000 as the minimum; army men recommend up to 5,000,000.

The process will be to get them in increments—in groups—of 500,000, as rapidly as they can be officered.

Chairman Chamberlain of the senate military committee says the increments can be obtained at an annual expense of \$156,000,000 each; the general staff, however, estimates a far higher amount.

The navy may be raised to 150,000 men, as against a present authorized war strength of 87,000.

Secretary Baker and the advisory board of the National Defense Council are discussing plans for war on a basis of a three years' conflict.

National food control and universal service—not merely military service—are among the things under consideration.

With the official admission that a "serious struggle is ahead," the health and individual effort of the nation must be conserved and directed to this end.

Labor will play a vast part in the enormous production of munitions and other supplies needed to wage a war such as is now looked for.

The Chamberlain bill empowers the President to call all physically fit men aged 20 immediately, and to call them up to the age of twenty-three as necessity arises.

SPANISH WAR VETERANS ORGANIZE IN L. A.

LOS ANGELES, April 3.—Confident that when a call for volunteers is issued, they will be the first to enter Federal service, members of the Spanish War Veterans' camp, and veterans of the Philippines and Boxer trouble are today hard at work recruiting a regiment. If possible, they will have sufficient men for organization by Monday night.

Fifty per cent of the regiment, it is expected, will be veterans. With such a nucleus for officers and non-commissioned officers, it is believed that it can be made a crack fighting force in a remarkably short time.

SO. CAL. METHODISTS SUPPORT WILSON

LOS ANGELES, April 3.—Voicing their support of President Wilson in the present crisis, the Methodist Ministers of Southern California have telegraphed the White House as follows:

"Praying that infinite wisdom may guide you and the Congress today assembled, we pledge co-operation and service to the last full measure."

NEWSPAPERS ARE ONE IN BACKING WAR MESSAGE

NEW YORK, April 3.—From east, west, north and south newspapers are today practically one in acclaiming the war message of President Wilson to Congress as an utterance that will find tremendous response from every citizen.

The New York Sun, perhaps the bitterest critic the administration has known, finds in it "the voice of the nation" and says that for "the firmness, resolution and self respect of it much of the previous indecision could be forgiven."

The expression of "President Wilson has voiced the unanimous will of the American people" recurred again and again in the editorials in slightly altered form.

M & M OF ORANGE WILL DISCUSS SALT LAKE WAY RIGHT

Situation At Villa Park and El Modena Will Be Subject At Meeting Tonight

The Salt Lake situation at Villa Park and El Modena will be the big topic for discussion at tonight's meeting of the M. and M. at Orange.

The railroad contemplates running its branch from Yorba Linda through the rich citrus section of Villa Park and El Modena, according to general belief in those sections. The movement has aroused the ire of some of the ranchers.

With three different surveys through the section already made, it is evident that the road is seriously contemplating the building of the line. The ranchers, however, intend to serve notice that the construction will be an expensive proposition, because it will be fought vigorously.

Some of those who would be affected by the line argue that the road will bring no benefit to the district, because its transportation needs are already well served, but that it would do infinite property damage by cutting up the ranches.

It is probable that an appeal will be made to the Railroad Commission to intervene, and a mass meeting of the ranchers of the section will probably take up the question in the near future. An appeal will also be made to the civic bodies of Orange to join in the fight.

Grading work is now in progress on the branch from Pico to Santa Ana. Graders have reached a point close to Whittier. The right of way cuts through some of the valuable walnut groves in that vicinity. The crew was working close to the state highway yesterday afternoon.

PERSONAL AND SOCIAL NEWS NOTES FROM ORANGE CITY

ORANGE, April 3.—Miss Eva Hoy was pleasantly surprised at her home on North center street when a host of her friends dropped in to spend the evening.

The time was enjoyably spent in looking at "snap shots" and playing old-time games, "charades," "tin-tin," etc.

Refreshments of wafers and punch were served, and the guests departed wishing Miss Hoy a pleasant "journey" to Long Beach where she is to make her home.

Those present were Misses Eva Hoy,

I WANT TO REPAIR THAT WATCH

I'll tell you what kind of time it will keep after it's repaired and then I'll make it do it.

Mell Smith
804 North Main St.

Emma Biggs, Verna Catherman, Vera Kahn, Ella Atherton, Goldie Nordeen and Vera Sherwood; Messrs. Robert Phillips, Dana Spicer, Richard Sweet, Porter Price, Dean Campbell, Dayton Ditchey, Ross Ditchey and Mr. and Mrs. Hoy.

The wedding of Miss Lois Runner and Walter J. Hogan of this city, who were joined in marriage Saturday at Santa Barbara, comes as a delightful surprise to the numerous Orange friends of the couple.

Returning from the north Sunday evening, they were welcomed by a reception at the bride's former home, 261 North Glassell street. This dainty, festive occasion announced the news to their friends here, among whom the following were present: Miss Jackson, a cousin, of Los Angeles; E. S. Palmer, Mr. and Mrs. Reese Williams, C. F. Peck and Mrs. Runner.

The bride is a daughter of Mr. and Mrs. J. W. Runner, formerly of Oceana county, Mich., a community which has given not less than thirty residents to Orange, including besides the Runners, the Hartwicks, Palmeters, Pecks, Andruses and Boulangers. Mrs. Runner came to Orange over a year ago to visit her daughters, Grace and Lois, little suspecting that her visit would see such "serious" developments as the marriages of both her daughters, the former having become the bride of Reese Williams.

Mrs. Hogan is well known, especially in educational circles, having been a most successful teacher in the Center street school during the last four terms.

The groom is the idol of all basketball fandom in Orange and is popular as a player in other cities, even at Whittier. He has been a member of the championship Orange Athletic Club basketball team for the last two seasons and was chosen as an all-Southern guard both years. In "private" life he is connected with the Orange city water department and his personal qualities have made him equally as popular as his athletic prowess.

Mr. and Mrs. Hogan will make their home in Nutwood Place.

A pleasant social affair took place Saturday evening in the form of a birthday surprise party in honor of Mrs. E. M. Cole at the Plaza flats. The hostesses were L. D. Handley and Mrs. Guy Crawshaw.

The following were present: Mrs. Mary Jackson, Miss Lucy Wade, Mrs. Dutton, Miss Bessie Wilkens, Mrs. Frank Lindsay, Mrs. Robert Lipe, Miss Lydia Bortz, Mrs. Ella Hinds, Mrs. C. Bailey, Mrs. Rice, Mrs. C. W. Pulley, Mrs. Francis Chapman and Louis Cole, Mrs. E. M. Cole and Louise Cole.

An enjoyable picnic party spent Sunday at the Orange County Park, a delicious outdoor spread being one of the features.

The party included Mr. and Mrs. Cord of San Gabriel, Mr. and Mrs. P. W. Wyland, Mr. and Mrs. William Wagner, Mr. and Mrs. Fleetwood Bell, Misses Helen Wyland, Beatrice and Gertrude Cole and Herbert Wagner.

Personals

The Orange student delegation at Pomona College was scheduled to come home from Claremont today to spend the Easter vacation. They are the Misses Ruth Benson, Gladys Gorton, Arline Davis and Messrs. Wilbur Woods, Morris Perry, Leighton Bascom and Ensley Campbell.

Mrs. Sue Dunlap who has been visiting at the Charles Pister home, left yesterday for San Jose where she will visit a short time before going to her home in Abington, Ill.

W. J. Wright of Coulterville, Ill., arrived Sunday night for a visit with his mother, Mrs. Tryphena Wright and sister, Mrs. G. W. Christensen, of 236 North Olive street.

A. L. Anderson of El Paso, Texas, is registered at the Hotel Orange.

Mr. and Mrs. Sherman Gillogly have moved from this city to their new home at Fullerton.

Mr. and Mrs. George Breckenridge have gone to Hollywood to remain for several days with the latter's mother, who has been seriously ill.

Mrs. Lola C. Tomblin and granddaughter-in-law, Mrs. M. B. Tomblin, of Anaheim, have gone to Murietta Hot Springs for a stay of three weeks.

Henry Mesian, Mr. and Mrs. J. H. McCarthy and Mrs. E. D. Ward formed a motor party to Elsinore Sunday. F. E. Hallman drove to Hemet Sunday and brought home his mother, who has been visiting the Dr. F. A. Gray family at San Jacinto.

Earl Phillips is assisting at the Will G. Chandler clothing store during the Easter vacation.

H. B. Hadley and family of El Modena were scheduled to move today on a ranch near Fresno.

Mr. and Mrs. Carl Pister, Mr. and Mrs. Paul Clark and Elmer Ensign spent Sunday at Laguna.

Mrs. Anna Alice Turner, expert culinary cook, is demonstrating this week at the Kogler Hardware Company's store.

Robert Wallace and Robert Hayes expect to spend some time at Murietta Hot Springs this week.

S. A. Salverson of Brea, spent Sunday with his wife and daughter in West Orange.

E. D. Ward transacted business in Santa Ana yesterday.

Earl S. Morrow of Santa Ana was an Orange visitor yesterday.

Edward Solberg was here from Corona to visit friends Sunday.

Mrs. M. N. Claypool is spending this week at Venice.

Mr. and Mrs. K. E. Watson and children drove to Los Angeles Sunday and spent the day with the C. A. Watson family. Masters Frank and Ralph Watson returned with them to spend the Easter vacation with their cousin, Kellar Junior.

Ralph Woods is expected home tonight from U. S. C. medical college for the spring vacation.

C. A. Mitchell, H. A. Oakes and daughter Mildred spent Sunday in Los Angeles.

Mr. and Mrs. John Kaiser and daughter were Sunday visitors at Long Beach.

Mr. and Mrs. Stanley Camfield of Los Angeles were guests at the E. W. Camfield home Sunday.

Mrs. Walburg Williams is spending a few days with relatives in Los Angeles.

Romaine Camfield made a business trip to Los Angeles yesterday.

C. A. Merritt and daughter Hilda were Long Beach visitors Sunday.

Naturally

"Don't the poor fishermen ever lose money in this seine fishing?"

"Oh, no. It is a business in which there are bound to be net profits."

BOARD OF SUPERVISORS DISCUSS PLANS FOR DISTRICT PAVED ROAD

Villa Park Committee States Community Is Ready to Go Ahead With Project

This morning E. J. Brown, William Knuth and George Dierker, who live in the Villa Park section, were before the Board of Supervisors relative to the proposal to form a road improvement district at Villa Park for the purpose of paving about two miles of road. Their visit today had to do with the securing of deeds to a portion of Tustin avenue, which, while it has been used for nearly forty years, has not all been deeded to the county. Steps are to be taken for straightening out the rights of way before further steps are taken for the formation of the district, which will be known as Road Improvement Division No. 3. It is proposed to pave the Villa Park station to Tustin avenue and south on Tustin avenue to Colins avenue. The Villa Park people use this road a great deal in their travel to and from Orange, and although they have the Santiago boulevard going through the section, that paved road will not be used as much as the one the road division will pave.

Gets Extension

H. Clay Kellogg, who has the contract for building the road and protective works on the Santa Ana Canyon road at Sulphur Hill, was before the board today, and secured an extension of time for sixty days for the completion of his contract. At a meeting of the board a month ago, got thirty days. Since then a good amount has been built, and travel through the canyon is not as difficult as it has been during construction.

The question as to whether the county or contractor shall pay for the expense of putting in the by-pass was discussed this morning, but no decision was reached upon the question.

Salaries Fixed

Recently the county fixed the salary of each of its two motorcops at \$130 a month, the motorcop to furnish his own machine. The county has since bought machines, and today the salary of each motorcop was fixed at \$100 per month.

MAYR'S WONDERFUL REMEDY FOR STOMACH TROUBLE ONE DOSE WILL CONVINCE

Gall Stones, Cancer and Ulcers of the Stomach and Intestines, Auto-Intoxication, Yellow Jaundice, Appendicitis and other fatal ailments result from Stomach Trouble. Thousands of Stomach Sufferers owe their complete recovery to Mayr's Wonderful Remedy. Unlike any other for Stomach Ailments. For sale by druggists everywhere.

1 IN EVERY TEN BABIES DIES BEFORE TWELFTH MONTH, AVERS EXPERT

WASHINGTON, April 3.—Approximately one in ten of all the babies born in the United States dies before completing twelve months of life, the Federal Children's Bureau announced today in connection with National Baby Week, May 1 to 6. The statement adds:

"It was once thought that a high infant rate indicated a greater degree of vigor in the survivors. Now it is agreed that the conditions which destroy so many of the youngest lives of the community must also result in crippling and maiming many others and must react unfavorably on the health of the entire community."

Two thousand, one hundred communities have reported to the Children's Bureau the details of a Baby Day or Baby Week by which they called attention to the need of protecting their babies. This bulletin may be had by addressing the bureau, which continues:

"The United States includes 14,186 incorporated cities, towns and villages and it is doubtful if among the thousands which have never had a Baby Day or Baby Week there is a single town or village which would not profit from such a campaign."

DULUTH VOTES AGAIN TO SEE WHETHER IT IS 'WET' OR 'DRY'

DULUTH, Minn., April 3.—This city, which was voted dry one year ago, but which is said to be really legally wet yet, today took another vote to see whether it is wet or dry. It's mind isn't fully made up on the subject.

Following the finding of the city to be dry by last year's election, the charter provisions were injected into the situation, which kept the city wet until July 1. In the meantime the wets had the issue placed upon the ballot this year to see whether this wet city remains wet or this dry city remains dry.

THIEF ROBS HOME OF OVERMANS AT DOUGLAS

Mr. and Mrs. O. C. Overman, who are now at Douglas, Ariz., have recently been the victims of burglars. A thief broke into their apartments and stole a new suit of clothes belonging to Mr. Overman and some jewelry belonging to his wife.

Dr. Enoch, phone 602W, 411 1/2 Main.

Easily Traced
"The plot of Dasher's latest book has a sort of vague, elusive familiarity."

"No doubt; he wrote it from the motion picture that was adapted from the stage success translated from the dramatized French version of a Russian problem novel."—Life.

The Right Word
Club Reporter—The scene beggared description.
Editor—So I should judge. Your description of it was very poor, at any rate.—Boston Evening Transcript.

H. LEIPSIC, "On Way to Postoffice," 312-314 N. Sycamore St.

EASTER SALE

Suits, Dresses, Coats, Skirts

New, Distinctive, Decisively Underpriced
—More and more the women of Santa Ana are learning the possibilities of this wonderful Leipsic garment section, and now, right at Easter week, when your thoughts are uppermost for the purchase of garments for Easter Sunday, this store comes to the front with this splendid news.

Particular Emphasis on
Beautiful Easter Suits and Dresses
Every Suit, Dress, Coat and Skirt are underpriced a great deal and assortments are really wonderful. For example—

H. LEIPSIC

Service, Value ALWAYS.

Little Things
A complete stock of notions will be found here.

Crowded--No--Simply Packed

—Hundreds upon hundreds of people filled our store to overflowing the past few days, buying the biggest shoe bargains ever sold in Southern California. TOMORROW ANOTHER BIG DAY—SO COME.

Shoes at Your Own Price TAKE THEM AWAY

THE KAFATERIA SHOE STORE QUILTS BUSINESS

LIKE A BOLT OF LIGHTNING FROM A CLEAR SKY WILL COME THIS ANNOUNCEMENT TO THE PEOPLE OF THIS VICINITY, AND RIGHT BEFORE EASTER TOO

\$10,000 Worth of Fine Shoes to Be Sacrificed for What They'll Bring

JUST ONE YEAR IN BUSINESS and NOW WE QUIT FOR GOOD

—The tremendous increase in the cost of Footwear has forced the management of this store to decide on this course. When this Kafateria Shoe Store was started a year ago its policy was to give Santa Ana and vicinity a store where Footwear of the better sort could be bought at prices that would mean a real saving. In one short year this store has attracted to it a host of friends and customers.

—THE LAST SIX MONTHS HAS SEEN THE SHOE BUSINESS REVOLUTIONIZED—Footwear has mounted higher and higher until one has to pay an exorbitant price for an ordinary pair of shoes. UP TO NOW WE WERE ABLE TO PROTECT OUR CUSTOMERS AND SELL AS HERETOFORE, having large stocks bought way in advance, BUT WE ARE IN SIGHT OF THE END—Rather than sell Footwear of inferior quality at the old prices, or raise our prices a hundred per cent, we have decided to quit.

—WE HAVE CUT, SLASHED AND HACKED THE PRICES UNTIL ONE MIGHT SAY, WE ARE NOT SELLING SHOES BUT GIVING THEM AWAY

—Remember this is not a sale of old stock, but brand new Footwear—Shoes and Slippers that embrace every wanted style for men, women and children—shoes from some of the best factories in America, so don't wait, but COME TOMORROW—BRING YOUR FRIENDS—BRING YOURSELF—BUT BE HERE WITH THE OPENING OF OUR DOORS!

Remember—Opportunity Knocks But Once—Grasp it While You Can

—The stock is new, the styles are the best and the prices—well it would be foolish for us to try and give prices—you wouldn't believe us,—you must come and see for yourself.

A Woman's Will

Woman's training is for the management of a home. She learns to spend an income prudently, but is seldom taught to earn an income. When she does earn one, it is by personal service rather than by investment. Like others, she must consider the disposition of her property when she is gone, but she is peculiarly handicapped in planning that disposition. A woman must be sure that her capital is safe. A man may venture what he has, knowing that in case of a loss, he can re-enter business and earn it back again. Not so a woman. Neither she nor her children are equipped for business, so their care must be to hold what they have. To hold it they need the counsel and assistance of men trained in the selection of investments, such men as control and direct the Orange County Trust & Savings Bank. Combined with the safety of their capital, women want certainty of income. However valuable their property, it will do them little good unless it yields a steady income. They can plan their household expenses if they know that they will receive a certain sum of money each month or year. Here again the counsel and assistance of men who have handled income properties and securities for many years becomes valuable. The Orange County Trust & Savings Bank is organized for just that sort of service. Its officers and directors were selected with that end in view. Consultation with them is free, and it is likewise confidential.

ROMINGER BILL AGAIN TO FORE

SACRAMENTO, April 2.—Having come to life suddenly after being pronounced dead by its opponents, the Rominger anti-saloon, anti-strong drink bill is once more basking in the spotlight at the capitol. The question today is "what will the assembly do?" But one test vote has been had in the assembly on a liquor issue. That was on the Knight bill which proposed to prohibit the drinking of liquor on trains except in dining and buffet cars. The vote was easily, but whether they can summon up the same amount of opposition to the Rominger bill remains to be seen. Undoubtedly the Rominger bill will be reported out by the assembly committee on public morals with majority recommendation that it be passed.

The Knight bill had no trouble getting the committee. The Rominger bill passed the senate when Senators Stuckenbruck and F. M. Carr changed over to the affirmative side. Stuckenbruck gave as his reason that a canvass of his constituents had resulted in a majority favoring the Rominger bill. Carr gave no reason. This made the final vote 28 to 17 in favor of the bill.

In case the Rominger bill fails in the assembly the opponents of the saloon will probably resort to the Knight bill which is an out and out saloon abolition measure, or to a constitutional amendment to pass the fate of the saloon and possibly strong drink, up to the people. Any anti-saloon move to be successful will have to pass the assembly.

TODAY'S NEWS AT WEST END THEATER

A part of the program of the West End's "Today's News," to be shown tonight, follows:

PHILADELPHIA, PA.—A strong police guard is on hand to watch the removal of interned German sailors to U. S. forts in Georgia.

The men bid good-bye to the Quaker City.

Several cars are required to transport their voluminous baggage.

SAN FRANCISCO, CAL.—Many of the valuable statues exhibited at the Panama-Pacific Exposition are being collected for return shipment.

The beautiful Argentine tower is the last of the fair buildings to fall.

SOUTHALL, ENGLAND.—Field Marshal French, head of the British Home Defence Forces, inspects several new companies of volunteers.

The famous "Ninth" Lancers demonstrate their successful fighting methods against the "Boches."

Fourteen motor ambulances are presented to the regiment as a gift of English sportsmen.

TEUTON SPY SUSPECT HELD INCOMMUNICADO IN L. A.; PROBE BEGUN

LOS ANGELES, April 3.—Arrested with maps of Redondo and Santa Monica beach districts in his possession, Otto Carl Doerrier, German spy suspect, is being held incommunicado by Federal officers today, while they investigate more fully his activities since he has been in Southern California. Doerrier, who admits he was formerly an officer in the German army, was arrested following a number of threats he made recently while intoxicated.

Following this, he made inquiries at drug stores regarding purchases of ingredients used in making explosives. Doerrier admits he is a chemist, and that he made the topographical maps found in his possession, but denies working for any government.

The sight of a man fleeing early today from a Tenth street group of buildings containing among other things, the Glenn Martin airplane factory, has aroused suspicion that an attempt was being made to destroy the plant.

ORANGE RANCH SOLD. R. M. Frick, of South Tustin avenue, has purchased the Fred Bandick ranch on West Collins avenue, Orange. Frick is said to have paid a good price for the property. The place is set to walnuts and oranges.

CITY TRUSTEES

IN CONTROVERSY THEY STAND BY ELECTRICIAN McCULLOCH

In Effect, Man Who Wires House Should Do What Inspector Says

PARTON PAVING IS GIVEN A REVERSE

Committee Is Appointed to Report On Advisability Of More Wells

An appeal to the City Trustees for the dismissal of William McCulloch as city electrical inspector was made last night by J. E. Cope of the Cope Electric Company, but the appeal was without avail. The City Trustees without a dissenting vote sustained the city inspector.

Cope has wired a house at 914 Stafford street, and McCulloch has refused to pass the job as inspected and approved.

Last night a written communication from Cope was received in which Cope stated that the city should either remedy the electrical inspection or declare the office of inspector vacant.

He also made a specific request that the City Council take action passing the 914 Stafford job for inspection.

"I remember that some time ago complaint was made by this same man against our inspector, and at that time the then city board found that the complainant had not a leg to stand on," said Trustee George McPhee. "In this case, I understand that the controversy arose from the fact that McCulloch has instructed the electricians to place the main line cut-out six feet from the floor, and Cope insists on putting it eight feet from the floor. Recently the Edison Company issued a circular in which it advised that these meter and cut-outs be placed not less than three feet nor more than eight feet from the floor, but preferably six feet from the floor. McCulloch then gave his instructions for the situation to be six feet from the floor. So far as I am concerned, I shall stay with our inspector so long as I think he is right and in this instance I think he is right."

Back and Forth. Cope returned to the floor, and declared that he knew by experience that to place a main cut-off within reaching distance of children and where a woman at work might thoughtlessly touch it, it was dangerous to life and property. He said the regulation of the Edison Company was never intended for residences but was intended for places where manual work is being done, such as in a shop, so that in case of injury one need not climb up on a chair to pull the switch. He said it would be dangerous on many back porches to put the cut-out where rain could blow in upon it.

"I have refused to pass this house for inspection," said City Inspector McCulloch, "because it does not conform to the instructions I gave, requiring main line cut-outs to be six feet from the floor. My business is to take the part of the people, and my experience is that six feet is the proper place for the cut-off. It is not up to the workman to tell the inspector what to do, but it is up to the inspector to know what he is talking about, and tell the workman what to do. I am looking at this thing from the people's side, not the wireman's side."

McPhee moved that the city electrician be sustained. Cope demanded that the matter be referred to a committee for investigation, as he did not think the matter had been fully presented. McPhee's motion was seconded and was carried.

Gas Stove Ordinance

The proposed ordinance by which it would be necessary for all gas stoves excepting portable gas stoves to have a vent to the attic or open air was discussed by McPhee, who said that the ordinance would entail a tremendous expense upon the citizens of Santa Ana, and he thought it best to confine the operation of the ordinance to gas water heaters, in which the chief danger lies. He also thought it well not to require the rigid inspection, provided for in the ordinance, and for which the property owners would have to pay.

"Our city attorney says it would cost Santa Anans \$200,000," said McPhee, "but I'd cut that in half."

McPhee moved that the proposed ordinance be remodelled by the city attorney so that it would apply to water heaters only, with no inspection. This motion carried.

Awaiting Report

Trustee J. W. Tubbs stated that within a few days City Engineer Bonebrake would get a report from the P. E. office in Los Angeles as to how much the P. E. thinks it ought to pay toward the cost of the North Main street bridge. Tubbs said that he favored making the P. E. pay its just proportion of the cost of the bridge else not use it.

City Attorney Scott said that the city could refuse to allow the P. E. on the bridge. No action was taken last night, and none will be taken until the P. E. statement arrives.

MONROE, WIS., HOLDING FIRST REFERENDUM ON U. S. GOING INTO WAR

MONROE, Wis., April 3.—The first war referendum in the United States is being held here today. The citizens of Monroe are voting on whether the United States should go to war with Germany. The vote is being taken in connection with the regular city election. A notable percentage of the population here is German and Swiss and the result is being watched with keen interest in Washington and elsewhere.

ill the P. E. statement arrives.

Tubbs urged that the entire board go to Pasadena and see the paving done along the P. E. tracks there. The work is similar to the new work done on Fourth street in the business section here. The Pasadena work was put in three years ago and is in good shape. The board agreed to go some day this week. If approved, the P. E. will be asked to put the paving in from Ross to Artesia on West Fourth.

Where the Justice?

Trustee Tubbs said that he could see no justice in the arbitrary rule of the P. E. that its Los Angeles to Santa Ana tickets are not good for transportation further north on Main than Fifteenth street. Tubbs pointed out that a twenty-five ride commutation ticket from Santa Ana costs \$8.35, from Orange \$3.40. If a Santa Anan lived beyond Fifteenth he either must pay five cents extra on each ride, which would make \$1.25, or walk. That is, Orange patrons get for \$8.40 what Santa Anans north of Fifteenth street would have to pay \$9.60.

The matter was referred to the Chamber of Commerce to be taken up with the P. E.

Transient Merchant

The new ordinance fixing the license for transient merchants at \$200 a quarter or \$5 per day, payable in advance, was read and passed. McPhee said the attorney for the M. and M. would help prosecute persons arrested under the law. Greenleaf voted no, saying he did not think the ordinance would hold water.

Wells & Bressler were given permission to proceed with paving Orange avenue and with doing work on West Fifth street.

Trustee O. H. Maryatt presented a request for "No parking" sign on the south side of the post office, which he thought should be reserved for postal carriers. The matter was referred to Tubbs and Maryatt for a report.

Fight in Sight

That there is a fight in sight against paving Maple avenue between Chestnut and First and for paving East Walnut between Orange and Oak was intimated last night. It is proposed to use four-inch concrete base and an inch and half asphalt surface. The Hagill-Finley Company has the contract partially signed up. The matter was referred to a committee last night to check up the signatures. Attorney H. J. Forgy said that the paving of the two streets could not be forced through on one petition, that there should be a separate proceedings for each street.

Tubbs, McPhee and Greenleaf were named as a committee to look after the purchase of 1000 feet of fire hose. The city attorney was instructed to look up the title for the street west of North Flower, at the north city limits line.

Again Halesworth

Last night a petition was presented with 524 feet out of 962 totalling for concrete-asphalt paving on Halesworth between Broadway and Riverine. It was brought out that there has been considerable switching around on that street, the east block at all times having a majority for the better paving. Last night it was concluded that to make any change in the present order for crushed rock and oil would cause delay. Nothing was done with the petition.

The street superintendent was instructed to tear up West Seventeenth between Broadway and Greenleaf and deposit some of the crown dirt against the curbs, which lack support at the gutter.

To Fix Holes

The street superintendent was instructed to repair a number of holes on East Fourth street.

The city attorney was instructed to write to legislators in opposition to the Gebhart bill, which, if in force, would double the expense of fire departments.

U. S. TO SEIZE ALL WIRELESS PLANTS

WASHINGTON, April 3.—The government will take over complete control of all wireless and radio stations in the United States and territories without further explanation, said Representative Alexander, chairman of the merchant marine and fisheries committee today. It is improbable, he said, that legislation will be enacted in the immediate future, giving the navy department control of the wireless systems of the country—a step decidedly necessary in the opinion of Secretary Daniels.

"The radio companies are co-operating perfectly with the government," Alexander said, "but it is practically certain that the government will place its own employees in charge of these stations immediately."

"This may be done, for the time being, by bringing certain employees of the companies into the government service. There is considerable opposition to actually turning over the wireless stations, both marine and inland, to the navy department."

Alexander will not introduce at this session of Congress his bill providing complete government ownership of wireless plants and stations, which died with the sixty-fourth Congress, until he has determined "many new features."

This bill would make it a penal offense to operate a radio station without a government license. Aliens could not obtain such a license. Thousands of small, privately owned stations would go out of existence. If this session of Congress shows a tendency to adopt any emergency legislation, Alexander will probably wait, he said, until "a more opportune time," to introduce a duplicate of this bill.

MONROE, WIS., HOLDING FIRST REFERENDUM ON U. S. GOING INTO WAR

MONROE, Wis., April 3.—The first war referendum in the United States is being held here today. The citizens of Monroe are voting on whether the United States should go to war with Germany. The vote is being taken in connection with the regular city election. A notable percentage of the population here is German and Swiss and the result is being watched with keen interest in Washington and elsewhere.

Perfect Protection—

"Ever-Ready" Dress Shields

—Demonstrator with special exhibit here this week.

—A year's trial has satisfied us that the "EVER-READY" Dress Shield is the best the market affords. It gives perfect protection, and perfect satisfaction—it is guaranteed in every respect.

—The "EVER-READY" shields are double covered, are permanently odorless and can be laundered in hot water.

—In addition to Dress Shields, we carry other sanitary garments for every need. These are all being shown this week and next in a special demonstration by the factory's expert.

A Style for Every Need—See Them All

"Ever-Ready" Bolero Shields.

—Fits perfectly, and adjustable; ventilated; ties across the bust.
 —Plain shields at 50c; daintily trimmed in lace, at 75c.

"Ever-Ready" Sanitary Aprons.

—Of rubberized Nainsook or rubberized Silk, in all sizes and several trims and styles.
 —Priced 25c to \$1.00.

"Ever-Ready" Sew in Shields.

—All shapes, Regular, Opera, Out-of-Sight, and Coat shields. Come in both white and flesh and combined with black. Cotton or Silk.

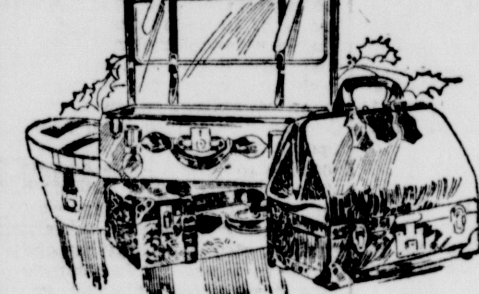

"Ever-Ready" Waterproof Aprons.

—For kitchen use, or in the laundry or nursery. Indispensable to the mother. Lengths 36 and 42 inches, priced at 50c and 75c.

"SAFETY FIRST" CUTS MORTALITY OF MINERS

WASHINGTON, April 3.—"Safety First," which the country has been hearing so much about for several years, is beginning to show substantial results in the mortality among miners, according to the Bureau of Mines here today.

Mines throughout the United States have been exacting a yearly toll in about 3½ men in every 1000 employed. The latest figures available are the lowest in eight years and the prospect is for still greater decreases.

2c ISN'T VERY MUCH

But 2c a foot on 25 to 50 feet of Goodyear Rubber Co.'s guaranteed Garden Hose means 50c to \$1.00 saved and that's worth investigating.

THE RUSSIAN JEWS

In nothing has the new Russian government shown its wisdom more than in its Jewish policy. It may be that the revolutionary leaders are sincerely devoted to the ideals of religious and racial tolerance. They appear to be. But quite aside from any question of principle or conviction, their prompt enfranchisement of a long oppressed race is one of the most practical steps that could have been taken to insure the success of their plans.

The shrewdness of the move is seen in the ready response of our own nation to the new regime. American opinion, which had long been hostile to Russia, and which felt obliged to apologize for its approval of the Allies whenever Russia was mentioned, changed almost overnight to sympathy and approval. A quarrel that we have always had with Russia was due to the severity of the Russian government toward its native Hebrews and its refusal to honor the passports of American citizens of Jewish blood. The removal of all disabilities from the Jews was an assurance of democratic equality and freedom which struck a responsive chord in American hearts. And it won the respect and friendship of other free nations in almost as great a degree.

There is another result just as vital as this winning of foreign approval in general. It is the immediate effect on Jewish opinion. The Jews are the world's bankers. Heretofore Russia has been handicapped by an informal but pretty effective financial boycott on the part of wealthy Jews. In the United States and elsewhere influential Hebrews, because of their antagonism to the Russian autocracy for its persecution of their brethren, made it hard for Russia to raise money. Now, all at once, the Jews of the world turn to Russia with sympathy and affection. Russia can get all the money she wants now. That fact may determine the success of the revolutionary government, and may even determine the success of the war.

WAR CROPS

The advent of war makes it more than ever important to increase food production. The federal department of agriculture, which until lately has been questioning the wisdom of any "artificial stimulation," has now begun to preach bigger crops as a patriotic duty.

A recent statement from Carl Vrooman, assistant secretary of agriculture, sets forth the desirability of raising more wheat, not merely to feed our own population and keep prices down, but as a war measure, enabling us to contribute to the feeding of the Allies.

He suggests also that the average small farmer owes it to his country as well as to his family, to raise as much as possible of all that he consumes. He should raise chickens and hogs along with his beans and sugar beets, vegetables and fruit, along with his orchard crops, thus making his family largely independent of outside food sources. Every section of the country should likewise try to make itself agriculturally independent of other sections, thus easing the burden of our transportation system and leaving it freer for military purposes.

But the obligation isn't all with the farmers. We read this: "It is the patriotic duty of every city man, boy, woman or girl who can to transform his or her yard or some nearby vacant lot into a garden, each square foot of which will grow two or possibly three crops during the coming summer."

If every citizen would assume this responsibility and carry it out faithfully, there would be no question of a plentiful food supply for the American people and for any foreign nation with whom they choose to share their output.

Thousands of parents, particularly in the East, are fearful of another outbreak of infantile paralysis this year. How can it be prevented? According to Dr. Caverly, president of the Vermont Board of Health, "the simple process of cleansing the nose and throat with warm water in which table salt has been dissolved is as good a preventative as we have."

The Tax Commission of California came to the conclusion, in its report,

that our present system of separated state and local taxation "has not resulted in equality, either as between the corporations and the people or as between the various classes of corporations."

With Malice Toward None

By Henry James

The Flag
A so-called minister of New York is in prison for having desecrated the flag. While there, a part of his daily routine will be to hold that flag to the top of the pole in the prison yard. Although this may be for the good of his soul, it is not drastic enough. The fellow in a beach town who used a flag to light his cigar got a wallop on the spot, and was ordered beyond the municipal limits after he had been forced to kiss each star and stripe. There was something of the American spirit in this treatment. Just now the flag stands for more than in ordinary times, and the man beneath it not ready to do it honor is the sort of person known technically as an "undesirable."

Marrying Kids

It is proposed to correct the boy and girl who run away and get married by breaking into the honeymoon with warrants for arrest, and permitting the principals to spend their time until their majorities in reform schools. While this is a good plan, there should be also some provision for correcting the magistrate who earns a fee by splicing a pair of kids.

The Slap

Not long ago a woman slapped a man's face and the courts were called upon to decide whether she did wrong or not. Decision not at hand. Her conduct was not strictly lady-like, but perhaps the face needed slapping and there was no avenging male handy.

Suckers

A gambler arrested for begging says there are no more suckers. Mistake. He's one!

Wisconsin Sentiment

As often remarked, this department has nothing to do with politics. Nevertheless, the fact that the material Wisconsin is sending to Congress possesses about the intellectual qualification for shoveling malt in a brewery is too apparent to be overlooked wholly.

Won't Be There

Colonel Roosevelt is slated to speak in Bryan's town in mid-June on the subject of universal service.

He will have to find another topic. This particular one will be settled before the date mentioned. However, if the colonel happens not to be otherwise engaged, then he might go to Lincoln just to say "I told you so!" to the other colonel.

Appreciation

The Mason City (Ia.) Morning Times takes paragraphs from this column, which is very nice of that enterprising paper, showing a commendable discrimination.

Also it forgets to credit the paragraphs, which is less nice.

In Regular Order

A man named Saturday has arrived to become secretary of Los Angeles ball club.

Billy Sunday is expected to arrive in quest of souls and kale.

Crusoe's man Friday dawned on the intelligence ahead of either of them.

No Birth Control

The news columns recently chronicled the funeral of a Chicago child in a rear basement flat in Chicago. Charity paid the bills.

There were three other children, all sick and hungry and ragged, and the mother again expectant. The father is blind.

Birth control not wicked? The very idea!

Women Enlisting

At least one woman is reported as having enlisted in the navy, and if this is true others will follow.

One effect of such enlistments will be to boom the slogan, "Trousers for women!"

Not Talkers

Occasionally a newspaper man is invited to address gatherings of people, generally women. The masculine citizen is not wiser on general principles than the feminine, but he knows that a newspaper man can't talk. So he doesn't encourage him to try. If, in the absence of such encouragement, the journalist tries anyhow the other male sidesteps.

Sometimes even a column conductor is requested to speak. It flatters him and rattles him, and on the way home he thinks of many worthy things he might have said.

650,000 YOUNGSTERS TO HONOR AUDUBON ON NATIONAL BIRD DAY

NEW YORK, April 2.—The kiddies and the birds are going to have a big day May 5. That is the day many governors have set aside as Bird Day in the schools. Just 137 years ago that day was born John Audubon, whose name now means bird protection.

There are 650,000 American boys and girls, helpers of the Audubon societies in protecting the birds, who will take part in the celebration. They are full fledged members and are known as Juniors. Each child paying a dime gets a membership badge and beautifully colored pictures of birds so they can recognize their feathered friends.

Thousands of new youngsters are expected to join the societies between now and May 5. Teachers are organizing them throughout the country, simply by sending their names to Gilbert Pearson, general secretary, 1974 Broadway, New York.

Some of the governors are taking an interest in the celebration which may lead to a National Bird Day in 1918.

CANYON ROAD GOOD

Supervisor Struck is authority for the statement that the by-pass road at Sulphur Slide, in the Santa Ana canyon, is in good condition and that the road through the canyon is in good shape.

PRESIDENT'S ADDRESS

WASHINGTON, April 3.—The address of the President follows in part:

"Gentlemen of the Congress: I have called the Congress into extraordinary session because there are serious, very serious choices of policy to be made, and made immediately, which it was neither right nor constitutionally permissible that I should assume the responsibility of making."

"On the third of February last I officially laid before you the extraordinary announcement of the imperial German government that on and after the first day of February it was its purpose to put aside all restraints of law or humanity and use its submarines to sink every vessel that sought to approach either the ports of Great Britain or Ireland or the western coasts of Europe, or any of the ports controlled by the enemies of Germany within the Mediterranean."

Restrictions Swept Aside

"The new policy has swept every restriction aside. Vessels of every kind, whatever their flag, their character, their cargo, their destination, their errand, have been ruthlessly sent to the bottom without warning and without thought of help or mercy for those on board, the vessels of friendly neutrals along with those of belligerents, even hospital ships and ships carrying relief to the sorely beleaved and stricken people of Belgium."

"The present German submarine warfare against commerce is a warfare against mankind. It is a warfare against all nations. American ships have been sunk, American lives taken, in ways which it has stirred us very deeply to learn of, but the ships and people of other neutral and friendly nations have been sunk and overwhelmed in the waters in the same way. There has been no discrimination. The challenge is to all mankind. Each nation must decide for itself how it will meet it. The choice we make for ourselves must be made with a moderation of counsel and a temperance of judgment befitting our character and our motives as a nation. We must put excited feeling away. Our motive will not be revenge or the victorious assertion of the physical might of the nation, but only the vindication of right, of human right, of which we are only a single champion."

Armed Neutrality Fails

"When I addressed the Congress on the 26th of February last I thought that it would suffice to assert our neutral rights with arms, our right to use the seas against unlawful interference, our right to keep our people safe against unlawful violence. But armed neutrality, it now appears, is impracticable. Because the submarines are in effect outlaws when used as the German submarines have been used against merchant shipping, it is impossible to defend ships against their attacks as the law of nations has assumed that merchantmen would defend themselves against privateers or cruizers, visible craft giving chase upon the open sea. It is common prudence in such circumstances, grim necessity indeed, to endeavor to destroy them before they have shown their intentions. They must be dealt with on sight, if dealt with at all."

Tells Teuton Stand

"The German government denies the right of neutrals to use arms at all within the areas of the sea which it has prescribed, even in the defense of rights which no modern publicist has ever before questioned their right to defend. The intimation is conveyed that the armed guards which we have placed on our merchant ships will be treated as beyond the pale of law and subject to be dealt with as pirates would be."

"Armed neutrality is ineffectual enough at best; in such circumstances, and in the face of such pretensions it is worse than ineffectual; it is likely only to produce what it meant to prevent; it is practically certain to draw us into the war without either the rights or the effectiveness of belligerents."

"There is one choice we cannot make, we are incapable of making: We will not choose the path of submission and suffer the most sacred rights of our nation and our people to be ignored or violated. The wrongs against which we now array ourselves are not common wrongs; they cut to the very roots of human life."

War Against U. S.

"With a profound sense of the solemn and even tragical character of the step I am taking and of the grave responsibilities which it involves, but in unhesitating obedience to what I deem my constitutional duty, I advise that the Congress declare the recent course of the imperial German government to be in fact nothing less than war against the government and peoples of the United States; that it formally accept the status of belligerent"

which has thus been thrust upon it and that it take immediate steps not only to put the country in a more thorough state of defense, but also to exert all its power and employ all of its resources to bring the government of Germany to terms and end the war."

"What this will involve is clear. It will involve the utmost practicable cooperation in counsel and action with the governments now at war with Germany, and, as incident to that, the extension to those governments of the most liberal financial credits, in order that our resources may as far as possible be added to theirs."

Asks 500,000 Men

"It will involve the organization and mobilization of all the material resources of the country to supply the materials of war and serve the incidental needs of the nation in the most abundant and yet the most economical and efficient way possible."

"It will involve the immediate full equipment of the navy in all respects, but particularly in supplying it with the best means of dealing with the enemy's submarines. It will involve the immediate addition to the armed forces of the United States already provided for by law in case of war at least five hundred thousand men, who should, in my opinion be chosen upon the principle of universal liability to service, and also the authorization of subsequent additional increments of equal force as soon as they may be needed and can be handled in training."

"It will involve also, of course, the granting of adequate credits, to the government, sustained, I hope, so far as they can equitably be sustained by the present generation, by well conceived taxation."

Co-operate With Allies

"I say sustained so far as they may be equitable by taxation because it seems to me that it would be most unwise to base the credits which will now be necessary entirely on money borrowed. It is our duty, I most respectfully urge, to protect our people so far as we may against the very serious hardships and evils which would be likely to arise out of the inflation which would be produced by vast loans."

"In carrying out the measures by which these things are to be accomplished we should keep constantly in mind the wisdom of interfering as little as possible in our own preparation and in the equipment of our own military forces with the duty—for it will be a very practical duty—of supplying the nations already at war with Germany with the materials which they can obtain only from us or by our assistance. They are in the field and we should help them in every way to be effective there."

To Suggest War Steps

"I shall take the liberty of suggesting, through the several executive departments of the government, for the consideration of your committees, measures for the accomplishment of the several objects I have mentioned. I hope that it will be your pleasure to deal with them as having been framed after very careful thought by the branch of the government upon which the responsibility of conducting the war and safeguarding the nation will most directly fall."

MAKES MOTOR QUARTER OF AN INCH LONG—SMALLEST IN WORLD

HILLSBORO, N. D., April 2.—Ivan T. Nedland, a jeweler here, has made the smallest motor in the world. The motor is just a fraction of an inch more than 1/4 of an inch long, runs perfectly and possesses all the parts contained in larger motors.

The commutator has four segments made of gold, each being insulated from the other by mica. Fibre is used as insulation between the commutator and shaft and also between the end pieces and the commutator, which is built up precisely as the ones in larger motors, no glue or cement having been used.

Diameter of commutator: 45-100 inches. Mounting: pivot steel shaft 9-1000 inches in diameter. The brushes are made of silver and are 12-1000 inches in diameter. The length of the motor is 19-64 inch. Height 11-64 inch. Weight: 5 1/2 grains. A small flashlight battery is used to supply the current.

DISSOLUTION NOTICE

Notice is hereby given that the undersigned, Geo. Selby and C. F. Candler, who have been engaged in business at 421 West Fourth Street, known as the Cole Garage, have dissolved their partnership by mutual consent. Geo. Selby retains from the business, which will be continued by C. F. Candler.

C. F. CANDLER,
GEO. SELBY.

AMUSEMENTS

At Clune's

Two or three years ago Harold Bell Wright, whose eight romances, including "The Shepherd of the Hills," "The Winning of Barbara Worth," etc., have had a total sale of nearly eight million copies, added to his galaxy of best sellers "The Eyes of the World."

This story of adventure and romance in the cities and mountains of Southern California has been put into elaborate pictorial form for the theater by The Clune Film Producing Company, and the announcement is made that the production will be shown here at Clune's on Friday and Saturday.

For six months the entire resources of the Clune Studios in Los Angeles were concentrated on the elaborate filming of Wright's story. It is promised for this work that it is the finest translation of a current popular romance ever prepared for the screen. It is in ten sections and consumes an entire afternoon or evening in its showing. The scenario for the work was prepared by the noted author himself, who also gave his personal assistance to the day-by-day work of interpreting his characters for the production.

Wright's novel contains much of the kind of material out of which successful motion pictures are made and it is promised that the photographs which form the background of the film version compose a magnificent panorama of the outdoor glories of Southern California.

"The Eyes of the World" will also have an elaborate musical score.

Temple

Seena Owen returns to the screen after several months' retirement to star in "A Woman's Awakening," a Triangle-Fine Arts picture, which will be shown at the Temple Theater today.

Her role is that of a young wife striving to maintain her ideals though married to a rake. No play produced at the Fine Arts studio in recent months has given a star better opportunities for displaying the variety of her wardrobe. Besides a number of evening gowns, Miss Owen wears a score of dashing street costumes, novel sport attire, chic riding habit and even dons male dress clothes for an adventurous expedition to a gambling resort.

The West End

Theodore Roberts, the celebrated character actor and Lasky star, made his first visit east in four years for the purpose of filming some of the exterior scenes in Washington, D. C., for "The American Consul," which is the Paramount attraction at the West End tonight and tomorrow. Since this was Mr. Roberts' first trip east in so long, he contemplated spending a short time in New York City and was all ready to leave Washington for the metropolis when he received a telegram to return to the studio and begin work on another picture. As he climbed on the train he sadly remarked: "So near and yet so far."

Automobiles for Hire—5-passenger, \$1.50 per hour running time; 7-passenger, \$2.00 per hour. Crown Stage.

HEARD OF JAPAN

Second Travellers Ebbl Delightfully Entertained With Talks and Music

Mrs. J. E. Gowen was hostess to Travel Section No. 2 on Monday afternoon. The program was in charge of Mrs. J. R. Medlock and the subject was Japan. At the invitation of Mrs. Medlock and to the delight of the members, Mrs. Fred Rafferty and Miss C. E. Dresser gave most interesting descriptions of their recent trip to Japan.

Mrs. Rafferty described the costumes of Japanese women, the home and home life, and Miss Dresser touched upon the customs and traditions of the Japanese as citizens. Many beautiful articles were shown to illustrate these talks.

Mrs. T. A. Winbiger, accompanied by Mrs. A. J. Padgham, delighted the members and guests with two Japanese songs, after which dainty refreshments were served, some of which were Japanese and some the more substantial dishes of our own country.

The graceful and appropriate decorations of wisteria garlands and Japanese lanterns, and the gaily flowered kimonos worn by the members, made the scene one long to be remembered by those present.

The guests were Mrs. Fred Rafferty, Miss C. E. Dresser, Mrs. A. J. Padgham, Mrs. T. A. Winbiger and Misses Margaret and Alberta Zimmerman, who assisted in serving the refreshments.

Jolly Surprise Party
Miss Emma Davis, who is home for Easter vacation, was pleasantly surprised last evening by a crowd of her young friends.

Miss Davis was invited to a friend's house for dinner and upon her return home was given a hearty welcome by the self-invited guests.

Indoor and outdoor games were indulged in. There was also piano, vocal and ukulele music. Miss Emma Davis being in charge of the games.

Delicious refreshments of orange ice and cake were served and the guests departed voting the evening an entire success.

Besides the guest of honor, those present included the following: Misses Marion Calhoun, Ruth Carmichael, Alice Strong, Doris Edgar, Ireta Coulson, Waive Kingrey, Esther Jensen, Millicent Long, Eleanor Sturgeon, Bertha Miller, Edna Rash, Pearl May, Marie May, Doris Watts, Violet Long, Mildred Dixie, Minnie Kozier, Ella Davis and Messrs. Steward Hawkins, Johnnie McCune, Stewart Taylor, Harry Carmichael, Jack May, Earl Friend, Robert Havens, Willie Rash, Harry Davis, Mr. Carmichael and Mr. Davis.

SIXTH BIRTHDAY

Little Miss Harriet Reed Celebrates Anniversary With Pretty Party

Mrs. H. T. Reed of 507 Chestnut avenue, entertained Saturday afternoon from two to five in honor of her little daughter Harriet's sixth birthday.

The color scheme was pink and white, and a beautiful big pink and white birthday cake with sixteen candles graced the center of the table. The guests each wished Miss Harriet a pretty wish before she blew the candles out. The place cards were white with pink Easter eggs and the favors were pretty little white and pink baskets full of pink and white candy eggs, with a fluffy rabbit or chicken peeping out.

The guests were Marjorie Burns, Mildred Reed, Barbara Horton, Billy Sylvester, George Turner, Elizabeth Roehm, Isabelle Brown, Henry Seiland, Bert Winslow, Henry Schroff, George Horton, Frances Horton, Isador Balaskia, Virgil Reed.

ENTERTAINS TEACHERS

Mrs. J. Birtcher Hostess At Pleasant Evening In Honor Daughter's Birthday

Miss Grace Birtcher was the honored guest at a pleasant evening party yesterday given by her mother, Mrs. J. Birtcher, in celebration of her natal day. The guests were the teachers of Lincoln school, where Miss Birtcher is one of the faculty.

The home at 617 East Pine street was very attractively decorated with pink carnations and sweet peas and the evening sped swiftly away with games, music and singing.

Delicious ice cream, cake and candies were served, the lovely birthday cake being a gift to the honoree. Miss Mildred Severance assisted the hostess in serving.

Those present were Misses Linda Paul, Annis Snow, Ursula Lee, Bess G. Campbell, Mary E. Giffin, Alma R. Steward.

Yesterday Miss Birtcher was showered with flowers at school by the teachers and pupils.

Announcement
The engagement of Miss Hulda M. Barrein, daughter of Mr. and Mrs. Reinhold Barrein of Orange, to Mr. William Grant Cook of Santa Ana, has been announced to friends of the couple.

Household Economics Meeting
The Second Household Economics Section of the Ebbl will hold its meeting tomorrow at 1:30 p. m. in the model apartments in the domestic science building of the high school, west building.

Played Auction Bridge
Mr. and Mrs. R. C. Peterson were hosts last night to the Auction Bridge club, of which they are members, and who meet informally to enjoy their favorite game. The evening's trophy went to Mr. and Mrs. Lester Carden.

At the close of the games, dainty refreshments were served upon the small tables, four couples being present.

SPRAINS AND STRAINS RELIEVED
Sloan's Liniment quickly takes the pain out of strains, sprains, bruises and all muscle soreness. A clean, clear liquid easily applied, it quickly penetrates without rubbing. Sloan's Liniment does not stain the skin or clog the pores like musky plasters or ointments. For chronic rheumatic aches and pains, neuralgia, gout and lumbago have this well-known remedy handy. For the pains of grippe and following strenuous work, it gives quick relief. At all druggists, 25c.

RUINED ORANGE HOME
Forrest Manard and Mrs. Mamie Vickers were arrested in Whittier yesterday, following a raid on a bungalow which they occupied, and charged with violation of the moral laws. Constable Wray made the arrest and was accompanied by William Vickers, husband of the woman. The husband charges that Manard broke up their home in Orange. Manard is also charged with contributing to the delinquency of the three Vickers children.

AS TO THE FUTURE
Now that the die has been cast, you will hear so much about the advancing costs of merchandise, the shortage of supply (amounting to almost a famine as regards wool), and all that, we're not surprised if you wonder what's going to happen. It's all rather vague and indefinite; but it makes everybody nervous.

We want you to know that you needn't worry so far as Vandermast & Son are concerned; you may count on us to supply all the merchandise you need at the right prices.

Just now the question of wool suits for Spring and Summer seems to be uppermost; a word of assurance about that may relieve your mind.

We shall have the most complete line of clothing of all kinds we have ever had. Every suit will carry our old guarantee of "absolute satisfaction or your money back." That includes wear, shape-retaining and fast color. And we have enough on hand and contracted for to last into 1918.

We stand back of all our goods; you know our policy in this matter in the past. And we'll have enough goods to take care of you.

Don't be anxious about it.

Vandermast & Son

FAREWELL DINNER

Miss Virginia Russell Given Surprise Saturday By Miss Anderson

In honor of Miss Virginia Russell, who leaves Monday with her parents for their old home in Slater, Mo., was the honored guest at a charming dinner Saturday evening at the home of Senator and Mrs. John N. Anderson, their daughter, Miss Beatrice, being the hostess.

The affair was a surprise to the honoree, who was called to the hospitable Anderson home, after the guests had assembled and given a hearty welcome upon her arrival.

The table was graced by beautiful Gold of Ophir roses, the delicious menu being served by the hostess' two sisters, Misses Annie and Elizabeth Anderson.

Music by Misses Ruth Violet, Rosamond Kraft and Bernice Bull helped to happily pass the evening hours and the maidens cut profiles with Miss Russell posing for them and these were kept for souvenirs.

Letters were written for the guest of honor to read on her journey and a bean contest caused much merriment.

Besides hostess and honoree, those participating were Misses Lillian Rumphrey, Beatrice Vegely, Rosamond Kraft, Violet Long, Bernice Bull, Katherine Remsburg, Harriet Owens, Georgina German, Ruth Violet.

HIS NINTH BIRTHDAY

Master Norman McClay Celebrates With Company of School Friends

Master Norman McClay, the manly little son of Mr. and Mrs. M. F. McClay of South Sycamore street, happily celebrated his ninth birthday yesterday afternoon with a company of his schoolmates, who showered him with many appreciated gifts.

The children enjoyed a series of out of door games and were later called to the prettily decorated dining room, where they were served with delicious refreshments pleasing to childish appetites. A lovely red and white birthday cake was admired and the places were marked with bunnies and chicks, which held the name cards.

Norman's guests were John and Billie Sylvester, Bobbie McKean, Maurice Read, Richard Knight, Van Pomeroy, Harold Jordan, Charles Adams, Newell Vandermast, Jefferson, and Vincent Hosea, Maurice Burns, Jewel Fletcher, Lou and Mary Pomeroy, Justina Palmer, Ella Armstrong and Margaret Bonebrake.

Auction Bridge Club
Mrs. E. S. Morrow was hostess yesterday afternoon to her Auction Bridge Club, the prizes going to Mrs. M. R. Scott and Mrs. O. H. Egge.

Mrs. Morrow used tulips and sweet peas, which made a pretty combination for her decorations.

Cooking School Tomorrow
Two o'clock this afternoon marked the opening of the Free Economic Cooking School conducted by the Southern Counties Gas Company. Mrs. Mary L. Haines, one of the foremost cooking instructors, is in charge of the school. More than 100 local housewives gathered at the newly remodeled gas office.

Mrs. Haines makes economy her watchword in all recipes. She shows how to use more economical foods and at the same time how to get the best results from certain foods. She makes one pound of hamburger feed a family of eight people, and bakes delicious cake without the use of the seemingly necessary milk, butter or eggs.

On Wednesday afternoon Mrs. Haines' menu will be Croquettes of left-over hamburger with spaghetti; Cream of tomato sauce; Escalloped dish of left-over macaroni and hamburger; Casserole of liver, creole style; Two-egg white cake; Golden cream filling; Baking powder biscuits.

Methodist All-Day Meeting
The all-day meeting for the ladies of the First Methodist church will be held tomorrow. The Ladies' Aid will meet in the morning, dinner at noon and the Home Missionary Society in the afternoon.

The committee on arrangements is as follows: Mmes. Gunnett, Hendrickson, Irvine, F. P. Jayne, Kyle, Ella Lash, Fannie Lash, Latimer and Lee.

AN EGG STORY
And now comes H. L. Stinchfield of Olive with an egg story. He has a Rhode Island Red hen that has produced an egg measuring 6 1/4 inches in circumference and 8 1/4 inches length wise.

IN CRITICAL CONDITION
Mrs. Creighton Waldorf and 4-year-old daughter, daughter-in-law and grandmother of O. A. Waldorf of Orange, are in a critical condition at the Children's hospital, Hollywood, as the result of an accident last Thursday. They were injured when the auto in which they were riding was crushed between two street cars.

RUINED ORANGE HOME
Forrest Manard and Mrs. Mamie Vickers were arrested in Whittier yesterday, following a raid on a bungalow which they occupied, and charged with violation of the moral laws. Van Cleave, secretary, re-elected. The members present were Mmes. A. W. Ames, L. J. Carden, H. C. Dawes, M. F. Heathman, J. J. Roper, Stephen Ross, L. L. Shaw, W. M. Smart, I. E. Stephenson, W. L. Grubb and T. W. Van Cleave.

Farewell to Councillor
The executive committee of the Orange County Christian Endeavor gave Rev. W. E. Spicer, the pastor councillor, a very pleasant surprise last evening by calling upon him at the log cabin at Orange. About eighteen of the cabinet were present and the time was passed with games.

Mr. Spicer, who leaves Orange in May, was presented with a gold Christian Endeavor pin, the presentation being made by H. P. Rankin, the county president. Mr. Spicer fittingly responded.

Refreshments were served before the guests departed, wishing Mr. Spicer success in his new field.

Distinguished Guests
Distinguished guests at last night's meeting of Hermosa Chapter, O. E. S., were Mr. and Mrs. Frederick Elsensohn. Mr. Elsensohn is past grand patron of the Grand Chapter of the state of Washington, O. E. S., and his charming wife is district deputy grand matron of the twenty-second district of the Grand Chapter of California.

At the next meeting of Hermosa Chapter, Miss Bessie Pendleton, district deputy grand matron of the seventeenth district of California, will be present and the matrons and patrons of this district will be honored guests, the Santa Ana Association of Past Matrons being in charge of the evening.

This district comprises Santa Ana, Artesia, Downey, Buena Park, Norwalk, Fullerton, Yorba Linda, Orange and Anaheim.

Methodist All-Day Meeting
The all-day meeting for the ladies of the First Methodist church will be held tomorrow. The Ladies' Aid will meet in the morning, dinner at noon and the Home Missionary Society in the afternoon.

The committee on arrangements is as follows: Mmes. Gunnett, Hendrickson, Irvine, F. P. Jayne, Kyle, Ella Lash, Fannie Lash, Latimer and Lee.

AN EGG STORY
And now comes H. L. Stinchfield of Olive with an egg story. He has a Rhode Island Red hen that has produced an egg measuring 6 1/4 inches in circumference and 8 1/4 inches length wise.

IN CRITICAL CONDITION
Mrs. Creighton Waldorf and 4-year-old daughter, daughter-in-law and grandmother of O. A. Waldorf of Orange, are in a critical condition at the Children's hospital, Hollywood, as the result of an accident last Thursday. They were injured when the auto in which they were riding was crushed between two street cars.

RUINED ORANGE HOME
Forrest Manard and Mrs. Mamie Vickers were arrested in Whittier yesterday, following a raid on a bungalow which they occupied, and charged with violation of the moral laws. Constable Wray made the arrest and was accompanied by William Vickers, husband of the woman. The husband charges that Manard broke up their home in Orange. Manard is also charged with contributing to the delinquency of the three Vickers children.

SPRAINS AND STRAINS RELIEVED
Sloan's Liniment quickly takes the pain out of strains, sprains, bruises and all muscle soreness. A clean, clear liquid easily applied, it quickly penetrates without rubbing. Sloan's Liniment does not stain the skin or clog the pores like musky plasters or ointments. For chronic rheumatic aches and pains, neuralgia, gout and lumbago have this well-known remedy handy. For the pains of grippe and following strenuous work, it gives quick relief. At all druggists, 25c.

THE WAR IS ON. DIRT IS OUR ADVERSARY.

News From Huntington Beach

IN JUNE WILL HOLD JUBILEE

Opposition to Plan For Big Celebration Fails to Make Showing

HUNTINGTON BEACH, April 3.—A special meeting and luncheon of the Chamber of Commerce was held at the Hotel Evangeline on Tuesday evening of last week relative to the proposed celebration which it is proposed to hold at the close of the third week in June, lasting three days, Friday, Saturday and Sunday. Some opposition to the affair had been manifested and it was desired to establish the plans definitely if the celebration was to be held as agreed upon. It appeared at the meeting that there were but few objectors and when the vote was taken on the question of confirming the former action of the Chamber there was no one who voted against it.

According to the plans of the promoters, about \$1,200 of the expense will come out of the city promotion and advertising fund, the remainder being raised by private subscription.

The celebration having been determined upon a tentative program was suggested by Ralph C. Turner, chairman of the program committee, and was commented upon favorably. The following were present: Will E. Tarbox, C. G. Boster, F. H. McElfresh, W. M. Adair, Charles H. Endicott, Leonard Oharr, H. T. Dunning, M. A. Turner, Ralph C. Turner, Charles E. Higdon, O. F. Joyner, T. R. Canady, C. E. Kutzner, W. D. Seely, J. K. MacDonald, B. T. Mollica, C. R. Furr, H. D. Jackson, J. H. Eader, Carl Olson, E. C. Wright, C. S. Huntington, R. C. Allen, C. E. Lavering, Chas. R. Nutt, Albert Olson, L. J. Hahn, E. E. French, G. A. Shank, C. S. Bundschuh, E. W. Gafford, Rev. Robert John Coyne, Rev. Matthew W. Coates, R. A. Johnston, M. E. Helme, Jerry Washburn, W. R. Wharton, J. E. Lambert, W. R. Anderson, L. T. Young.

The grammar school will hold an inter-class swimming meet early in April, at the local plunge.

Miss Margaret Jackson of Fresno, publicity manager for one of the big raisin corporations of that city, has been the guest of Mr. and Mrs. H. D. Jackson for several days.

Arthur E. Paine, principal of the high school, has announced that he will not be a candidate for reappointment.

A reception and program was given by the W. C. T. U. to a large number of guests at the home of Mr. and Mrs. C. H. Howard last Tuesday evening.

Gerald Mitchell has been declared the winner of the essay contest at the High School and will represent the school at the forensics.

Mr. and Mrs. M. B. Rosenberger have returned from Beaumont where

they were the guests of Mr. and Mrs. Charles Rosenberger, parents of Mr. Rosenberger.

Mr. and Mrs. George Hughes and daughter, Madeline, of Downer Grove, Ill., were the guests of Mr. and Mrs. F. H. McElfresh last week.

Judge and Mrs. W. D. Seely, Miss Ruth Harding and Mrs. Claude Graham left Friday noon for Palo Verde Valley and will visit for a week with Mr. and Mrs. Riley Graham.

Mr. and Mrs. Harold H. Campbell are spending their vacation at Covina. The Home Talent Entertainment, given by the high school Friday evening, at the school auditorium, was well attended. The program was a most successful one and included the following numbers:

Orchestra—Magic Fire Overture. Girls' Chorus—Pond Lilies. Vocal Solo—Slave Song, Miss Irene Engle.

Valse de Concert—(Moscowski) Melva Rosenberger, Gladys Bollon, Hazel Horn, Elise Armitage.

Male Quartet—Love's Old Sweet Song, John Murdy, Jack Given, Leo Lavering and Forest Turner.

Spanish Students' Chorus and Dance. A play was staged under the direction of Miss Mary Agnes Clark.

The musical part of the program was one of the best ever given by the High School, and was arranged and conducted by Miss Frances Donthit.

The Spanish dance was under the direction of Miss Elizabeth Lorber and its execution was of a high order. All three are members of the school faculty. Special mention should also be made of the costumes for the dance, which were also the product of the school under the direction of Mrs. Harriet Edmiston of the Domestic Art department. Miss Gladys Bollon and Miss Hazel Horn were the accompanists.

Efforts are being made to establish a camp of Modern Woodmen in this city, about twenty members of the order being located here.

PLEASANT SURPRISE IS GIVEN VISITOR

HUNTINGTON BEACH, April 3.—A very pleasant surprise party and shower were given Wednesday evening at the home of Rev. and Mrs. Matthew W. Coates, in honor of Mrs. Ronald McKillop, who for some months has been visiting at the home of her son, Dr. J. E. McKillop.

The party gathered at the Evangeline and went in a body to the home of Rev. Coates, where Mrs. McKillop had previously been invited for the evening. The party was composed of Dr. and Mrs. J. E. McKillop, Mrs. Mary O'Keefe, Mrs. Martha E. Harrell, Mrs. Mary E. Robertson, Mrs. E. L. Uford, Mrs. Williams, Mr. and Mrs. Johnson, Mrs. L. C. Preston, Rev. and Mrs. R. J. Coyne, Rev. and Mrs. J. W. Towry, E. C. Wright, Charles Andrews, Miss Marcia Uford, Miss Lizzie Harrell, Miss Jennie Uford, Miss Elizabeth Kerr, M. A. Turner, Mrs. Ernest Probert, Rev. and Mrs. Matthew W. Coates, Wesley and Ellsworth Coates.

Mrs. McKillop has since left for Nevada for an extended visit with her son, Alfred McKillop.

TO LIGHT UP MAIN STREET

Contractor For Ocean Avenue Paving Wants to Quit Project

HUNTINGTON BEACH, April 3.—After some delay action has been taken definitely by the city trustees looking to the placing of gas lights along Main street from the foot of the street at the pier entrance to the city limits about a quarter of a mile beyond the High School.

The lights will be similar in many respects to those placed on Seventeenth street but will be supplied with a double piping system in order that they may be turned on from a central station each evening without the necessity of traveling up and down the street and turning on each light separately. Monday evening, April 16, has been fixed as the date upon which protests may be made.

The proposed paving of Ocean avenue has been delayed and a formal letter from the successful bidder, L. G. Garnsey, has been received asking that he be relieved from the contract as a threatened lawsuit has made it impossible to sell the bonds.

It is understood that one or two of the largest property owners are taking advantage of technicalities and endeavoring to block the work. The city trustees have not complied with the request of Garnsey, who has the contract, and action was deferred for one week. Mr. Garnsey has definitely agreed to bid on the work when it is advertised again if the city releases him from the present contract.

The ordinance reducing the price of gas from \$1.50 to \$1.25 per thousand cubic feet has been adopted. It will go into effect May 1. Meanwhile the gas service continues to be all that could be asked. The business has become self-supporting and a little better than that. Extensions are being made almost daily and it is expected that the reduced rate will lead to still further extensions.

P. T. A. TO ATTEND SCHOOL MEETINGS, SUGGESTION MADE

HUNTINGTON BEACH, April 3.—The following resolutions have been adopted by the Parent-Teacher Association:

"First—That we ask the school boards that do not now do so, to hold their meetings monthly on a regular day of the week at which the public and the representatives of the Parent-Teachers' Association may be present and hear the minutes of the last meeting read and listen to the discussions and business transacted and receive suggestions that may be made to them by those interested in the schools.

"Second—That the trustees have on hand at these meetings a copy of the school laws and be prepared to answer from it the school question pertaining to the law and regulations.

"Third—That we recognize the improvement in the High School work by Prof. Paine after his special study and work during his vacation and suggest that our teachers continue to

Look and Feel Clean, Sweet and Fresh Every Day

Drink a glass of real hot water before breakfast to wash out poisons.

Life is not merely to live, but to live well, eat well, digest well, work well, sleep well, look well. What a glorious condition to attain, and yet how very easy it is if one will only adopt the morning inside bath.

Folks who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatism; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store which will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.

Partners:
Father Time Ages VELVET.
Mother Nature Mellowes It.

An Unbeatable Team: Time and Nature

When tobacco manufacturers try to substitute hurry-up curing methods for slow, natural ageing of tobacco, you smokers pay the price.

There is no better method of bringing out the mellowness and mildness of "Kentucky's best" than two years natural ageing in wooden hogsheads.

VELVET is Kentucky's best Burley tobacco aged by Nature's method, the patient method, the expensive method, but the best method known to man.

Think about that over a pipe of VELVET.

Liggett & Myers Tobacco Co.

There ain't a whole lot of difference between a ripe persimmon and a nearly ripe one—on the outside. Some of these nearly matured tobaccos sorter favor VELVET in looks.

CITY MUST DRILL SOME NEW WELLS FOR WATER SUPPLY

Since some of the wells from which the municipal water plant pumps its water are failing, new wells will have to be drilled. The situation is in no way serious, but still some action will be necessary.

Some of the wells now in use were drilled a quarter of a century ago, and naturally some of the casings have given away and the supply has been decreased.

Last night a committee was appointed by the city trustees to make recommendations as to how many wells should be drilled.

HE PLEDGED

Dick Brown was very much addicted to drink and some of his friends determined to get him to take the pledge. To that end one of his neighbors read to him from a newspaper of a man who was so saturated with alcohol that in blowing out a candle his breath caught fire and he was burned to death.

"Burned to death," exclaimed Dick. "Bedad, that'll never happen to me. Bring me a prayer book and listen—I, Dick Brown, hereby solemnly declare that as long as I live, I will never blow out a candle."

POLY AND NORWALK IN TUSSLE TODAY

The Santa Ana Polytechnic High School baseball team is at Norwalk this afternoon, playing a practice game with the high school there.

No game has yet been arranged for Saturday on the Poly diamond.

A week from Saturday the Polytechnicians will play the Sherman Indians at Riverside. The members of the team are looking forward with keen anticipation to a trip they will make to San Diego May 4, when they will meet the high school team of the Bay City.

Yesterday afternoon on the Poly grounds the Sophomores beat the Seniors by a score of 5 to 2. Cook and Marsiles were the battery for the Sophs, while Strong and Carnahan formed the Senior battery.

In a ten-inning game at Orange Saturday the Orange High School defeated the Sherman Indians by a score of 7 to 6. Orange got six hits off Fideo and Lord, and the Indians reached Hinrichs for 9. Orange made three errors and the Indians four.

OWNS SILICA MINES

Lou H. Bennett, former resident of Orange, is now located at Elsinore, where he owns an interest in valuable silica mines, which are said to be paying handsome dividends. Silica is used in making brick and the mine at Elsinore has an unlimited supply.

DEATH KNELL OF HOHENZOLLERN RULE SOUNDED SAY BRITISH

President's War Message Is Haired With Acclaim By London Press

LONDON, April 3.—"The death knell of Hohenzollernism," was the outstanding feature which the London afternoon press today drew from President Wilson's address. The Evening News carried a seven-column headline proclaiming in bold type "United States declares war on Hohenzollernism." All evening newspapers printed the speech in full.

"It is an epoch-making message," said the Evening News, "redounding not only to President Wilson's personal credit and honor, but to the credit and honor of the American people. It is the death knell of Hohenzollernism and all such dark and murderous tyrannies. If the German people are not stirred to the depths by the President's appeal in the name of liberty

and civilization, then, indeed, they are beyond all human hope." "The speech was one worthy of the occasion," declared the Evening Star. "Every Englishman will now hold President Wilson in higher estimation. It is more than a mere declaration of war; it sounds the knell of autocracy and of any form of government which makes possible secret diplomatic understanding and intrigues with all their mischievous results."

A number of the British newspapers point out President Wilson's clear distinction between the German government and the German people. The call Mall Gazette emphasized this particularly, and concluded:

"The vital essence of the speech was the declaration of fullest war measures and the most complete co-operation with the Entente. We have much satisfaction in being joined by a nation carrying so much of our own blood, in a crusade more than worthy of its best traditions and of ours."

THIEF PURLOINS HOSE FROM LOCAL MINISTER

Rev. G. N. Greer of the Reformed Presbyterian church, has reported to the police the theft of a 50-foot hose from his home at 720 East Third, between Saturday night and Sunday morning.

BIG REAL ESTATE DEAL
Jacob Stern and S. Goodman Monday completed negotiations for the purchase of the Sansena building on East Commonwealth avenue, Fullerton. The building is a two-story structure and has a frontage of 75 feet. It is one of the biggest deals in downtown real estate made in Fullerton this year.

NEARLY \$4,000 IS INHERITANCE TAX, CROWTHER ESTATE

Sheriff Is Sued Because Attachment Was Not Released As Demanded

Today there was filed by State Inheritance Tax Appraiser J. N. Anderson a statement showing that from the heirs of William H. Crowther, Placentia pioneer, there has been paid to the state \$3,862.59 as inheritance taxes. The Crowther estate was appraised at \$202,553.04.

Sheriff Is Sued
Mrs. Leora E. Newcombe of Anaheim has brought suit against Sheriff Jackson on the ground that the sheriff, through Deputy Cravath, has failed to release an attachment placed upon property owned by Mrs. Newcombe. The difficulty arose over the fact that when a bond was given to cover the amount sought by the attachment, Deputy Cravath contended that the sheriff's office had no right to release the attachment since a return had been made. He contended that the superior court of San Francisco, in which the case was being tried, alone had the right to release the attachment.

Will Is Filed
Auguste Toussau has filed a petition with the will of Frank Ricoute, who died on March 26. Ricoute's will leaves his entire estate, valued at \$6000, to his two nephews, Pierre and Leon Ricoute, both of Buena Park. H. G. Ames is attorney for the petitioner.

Action on Note
The Title Insurance & Trust Company has brought suit against W. A. McCutcheon and others for \$562.07, alleged to be due on a note.

For Guardianship
Harry S. Wright has asked that he be appointed guardian of the property of his father, John H. Wright, of Buena Park, aged 96 years. H. C. Head is attorney for the petitioner.

To End Estate
Martha E. Taylor has petitioned the court for an order terminating the life estate of Thomas G. Taylor in property at El Modena. D. G. Wetlin of Orange is attorney for the petitioner.

For Letters
Dora M. Lewis of Orange has asked for letters of administration upon the estate of her father, Henry Most, who died on March 9. The estate consists of \$931 on deposit in the Postal Savings Bank at Long Beach. H. C. Head is attorney for the petitioner.

Suit on Claim
An action over a claim for the hire of teams upon construction work on a paving job near Placentia was brought by D. R. McDonald today against M. L. Huberman and others. Suit is for \$126.98. G. H. Scott is attorney for the plaintiff.

IN THE JUSTICE COURT SAYS HE DIDN'T GET WHAT HE PAID FOR

J. S. Becknell declares that he paid for one thing and got another. He has sworn to a complaint charging Luis Camarilla with getting money under false pretenses. He bargained with Luis to buy cow manure at \$2.75 a ton, and Luis delivered some material that was not cow manure and was not valuable as fertilizer.

For Bicycle Theft
Manuel Servallas was tried and found guilty of stealing a bicycle from Roy Beall. Justice Cox sentenced the man to six months in the county jail.

COMPANY L ISSUES CALL FOR MORE MEN FROM THIS COUNTY

PRIVATE D. E. KEECH
Correspondent

CAMP ARCADIA
IN CAMP ARCADIA, Cal., March 31—Company L arrived in due time at the first station, the mobilization camp inside of Baldwin's Race Track. The mile oval is surrounded on three sides by a row of huge eucalyptus trees. Upon the other side a half mile of grassy plane separates the grounds from heavy oak woods. Four miles to the north (though apparently just outside the field) rises the mighty ridges of Mount Wilson, shaggy with pines and oaks. Its peak is set with the shining observatory domes, miniaturized in size by the distance.

Although the camp in Sacramento was inside a race track, the present mobilization camp strikes the "veteran" members of the company as one of the most picturesque places to which it has been sent for years. In contrast to the immense grandstands, fronted by lawns, the well-groomed track and barren infield at Camp Hiram Johnson, Sacramento, we pitch camp and make ourselves at home in the center of a long-deserted horse racing rendezvous. The familiar grandstands usually fronting upon a race track are missing.

It is explained by a soldier acquainted with the history of Arcadia, that the law prohibiting betting upon horse races in California put this famous resort of the bookmakers out of business. The dismantling of the grandstands followed and now the track and the rest of the grounds are covered with a short crop of various wild grasses. Even though a triple rank of uniform one-story stables remain intact around the northern third of the track, the whole seems utterly abandoned.

The Arrival
L Company left the cars and marched the short distance to the camp shortly after 12 o'clock noon. Company I of Pasadena, had already arrived and commenced the pitching of its tents.

The position of tents for each company was indicated by parallel rows of stakes across the field. A couple of cords of wood was piled at the far end of each row of stakes where the cook tent would be located. Water has not yet been piped to the various company streets, but one faucet near Company I supplies the camp.

Meat sandwiches and coffee were served for lunch and supper. The L Company line of conicals went up soon after lunch was over and the afternoon was spent filling bed sacks with straw and completing camp.

Tonight, with the exception of Corporal Kenyon and Privates Morgan, Laune, Ward and Wood, who are on the camp guard, the boys are sitting about on their bunks getting acquainted by candlelight.

Immediately upon arriving, First Lieutenant Ford was appointed Officer of the Guard for today, which means until tomorrow noon.

Lieutenant Swanner's cold is somewhat better than this morning but he is still a little hoarse.

Sense of Duty
There is an earnestness of evidenced purpose by the quiet demeanor of the men which has never been present before in the company. It is that sense of duty which takes command of every man, and especially of every soldier, for he is formally dedicated to his country's cause, when the whole nation that the peer in strength of any other world power is making war against his native land.

The truths spoken in the farewell addresses of Rev. Stephenson and Mr. Eden, and the kind though solemn farewell tendered by the great crowd of Orange County citizens have left an impression of obligation of service which will never be erased.

D and H Companies and the hospital corps closely followed Company L into camp.

Tattoo has just blown (9 p. m.) and lights must go out. Almost all the boys are in bed so must close.

SUNDAY LETTER
IN CAMP, ARCADIA, April 1st: Day's first "day of rest" since the calling of Company L is being celebrated by the boys in whatever way each may desire. Many are writing home of our arrival here. The first regular camp dinner was enjoyed this noon. Each soldier was served with a big dish of the original Irish stew, three pieces of "punk" (bread), a hunk of mashed potatoes and a liberal helping of stewed prunes.

CAMP ARCADIA, April 2—Capt. Holderman has announced that every young man who wishes to join Company L may do so if they appear at the Arcadia camp during this week. More men are urgently needed.

The measure of Orange County's patriotism must be looked for in the number of men, quite as much as the quantity of money, contributed to the defense of the nation. This is the last chance to enlist in the home company and every patriotic young man of military age is urged to buy a ticket to Arcadia. The Pacific Electric line from Los Angeles to Monrovia passes directly by our camp.

Do it now!
MAKE THE ORANGE COUNTY COMPANY WHAT THE PRESIDENT CALLED FOR—A WAR STRENGTH COMPANY OF 144 ENLISTED MEN! WE LACK FIFTY MEN OF THIS QUOTA TODAY! ENLIST!!!

"That's the stuff," exclaimed the "old boys," as the cook and kitchen police filled their mess tins. "This is the life for me! Just like the good old days on the border!"

And the wholesome though plain food is served three times each day at regular hours, is appreciated by old and new members alike. Some of the fellows took the electric cars into the city to visit friends, some are out walking, others reading, writing, or just resting about camp.

Among the many relatives and friends who motored out to see their "soldier boys" in camp today are Mr. and Mrs. E. D. Burge, whose son, William Burge, is a corporal in the company; and Mr. and Mrs. Jack King, the parents of Sergeant Earl King.

Private D. E. KEICH.

BUYS FIVE ACRES AT FAIRVIEW HEIGHTS

W. H. Welsh, a recent arrival here from Franklin county, Washington, has bought a five-acre tract at Fairview Heights and is now erecting a cottage and putting the place in fine shape. He intends to make his home there permanently and will spare no expense in making the place attractive. Both he and his wife are thoroughly in love with Orange county and are delighted with the section in which they have located.

BOUGHT AT GARDEN GROVE
William Rosser and wife of Rochester, N. Y., have bought the Rennie 10-acre ranch west of Garden Grove. The purchasers have been visiting their relatives, Mrs. M. E. Saylor, Frank Saylor and George Barnes at Garden Grove. They left last evening for their home in New York to arrange their affairs preparatory to moving to their ranch. They will plant a portion of the place to oranges.

KILLED COYOTE
Elmer Ensign of Orange killed a coyote at Laguna Sunday. Ensign was with a party driving to the beach and when the coyote crossed their path he shot it with his "22 special."

EUR-OAK \$3500 Imported Black Jack

Will make the season of 1917 at following places: Leo Borchard's ranch, Talbert; Sam Ellis' ranch, Greenville; B. P. Clarnard, El Toro. For further information, write CHAS. GRIFFIN, 205 S. Flower St., Santa Ana.

Free Economic Cooking School

Today, Tomorrow and Every Day This Week—2 to 4 o'clock

MRS. MARY J. HAINES'

one of the foremost cooking experts in the west, gives daily demonstrations to the housewives of Santa Ana on how to reduce the cooking expenses. Mrs. Haines gives out a new set of recipes each afternoon, demonstrating each one before the class.

Economy is the watchword of her work. She chooses the most economical methods in preparing her dishes and eliminates the more expensive foods.

Think of it—

A cake without butter, milk or eggs!

Real home-made Bread in two hours!

1 pound of Hamburger for 8 persons!

This is real economy, the kind of economy needed in every American home today. A state of war means higher prices. Learn from Mrs. Haines' School of Economy Cooking the ways to reduce the high cost of cooking.

Mrs. Haines urges every housewife to bring both pencil and paper pad to her classes for taking notes. She has something interesting for every housewife in Santa Ana.

Valuable household articles are given away each afternoon at Mrs. Haines' classes. These articles are for use in the kitchen and home. You are entitled to one of them.

Every Afternoon at 2 O'clock

Don't Try to Heat Water "Instantly"—It Costs Too Much Do It the Bailey Way--

—draw steaming-hot water instantly from the Bailey storage boiler—draw it at any faucet—draw as much as you want—
—but heat it more slowly, which means more economically.
—we have perfected a very simple but highly efficient heating element that is easily cleaned when necessary
—we have cut out wastage and simplified the whole operation
—we have incorporated a thoroughly insulated storage boiler
—the Bailey is actually automatic under continuous operation and maintains the water at a practically even temperature throughout the boiler.
—we will gladly furnish exact information as to prices, sizes, etc., on request

EXPERTS TELL HOW U.S. WILL FIGHT FOE

Campaigns to be Conducted by Sea, Land and Air are Outlined

BY SEA

NAVY TO PATROL EAST COAST, IS VIEW OF SEA STRATEGIST

Protecting Harbors Is Duty Sea Forces Share With Army

BY W. H. STAYTON
 Executive Secretary of the Navy League of the United States; Expert on Naval Strategy and Tactics
 (Written Especially for this Newspaper)

What problems will our navy face in the war with Germany?

Luckily our government finds its burden lightened by the grip of the British which holds off the weight of what the Germans call the High Sea Fleet. It is our good fortune—our national safety—that we now have to fight, not Germany's navy, but only such submarines or raiders as manage to evade the watchful British.

The defense of our harbors is a duty the navy shares with the army. The coast defense batteries and, within their field of fire, the mines, are in charge of the military arm. But the long sweep of coast line between the navy and in this field we are fortunate in having a large fleet of motorboats. In the sport of motorboating we have been pre-eminent—both in the boats themselves and in the qualities of the men who handle them. Here the navy finds a ready-made force that will require no more training than Jackson's squirrel shooters needed at New Orleans—and one that will be equally efficient.

Of course small motor craft cannot fight large submarines acting as surface vessels, but such craft can locate the periscope of a submerged undersea boat, and when that periscope is once located there is nothing left for the boat to do but to get deep under water and stay there. Even then her bubbles will probably betray her course and as long as the motorboat can hang on the trail, the submarine is blind and helpless. The number of hours she can run submerged is, of course, decidedly limited.

It is unlikely that conveying merchant vessels will be undertaken. Conveying should be done by light, swift, handy vessels of the destroyer class. Our fleet is deficient in vessels of this type, and what we have will undoubtedly be kept with the battle fleet, which must have an outlying screen against submarine attack.

Patrol duty, not only along the coast, but on the high seas, will be undertaken by the navy to protect against an occasional raider which may get on the trade routes. So our fast cruisers—what few we have—have their jobs cut out for them. A definite alliance with the allied navy taking over the work of British and French cruisers along the Atlantic coast and releasing these vessels for other work on the European side.

Further than this we probably will not go at present. Our heavy vessels with their attendants, and the vessels of the train, will be mobilized in some well-defined strategic harbor. There, they may wait the call to action. The war may be ended before the fleet's day comes, or the developments may call for us to send abroad an expeditionary military force. If so, we will see the navy doing on a larger scale what it did so well off the south coast of Cuba in 1898. We will see all of our available merchant ships formed into a compact fleet and headed for Europe, surrounded by a screen of ships of various classes capable of destroying any submarine that might appear.

So, too, it is conceivable that the tactics we so successfully followed at Santiago may not avail. Perhaps the time will come when our navy and the ships of the allies will go in and find and destroy the enemy vessels. If so, we shall need, and I believe we shall find, another Dewey. For however varied or however difficult may be the task our navy is called on to perform, our people know that never once has the navy failed to do more than was asked or expected of it. There is not one page of our naval history that needs to be altered from the exact truth in order to make it pleasant reading for the patriotic schoolboy.

BY LAND

HOLDS AMERICA SHOULD ASSIST FRENCH ARMY, NOT BRITISH

Professor of Military History at Harvard Analyzes Conditions

BY PROF. ROBERT M. JOHNSTON
 (Professor of Military History at Harvard University; Advisor of United States War College, and Editor of the Military Historian and Economist.)
 (Written Especially for this Newspaper)

What will we do with our troops in the war with Germany?

We should do with our troops whatever will tend to defeat Germany most rapidly. And furthermore, in view of the fact that we have few troops now, we should frame our military action along such lines as to endow the country immediately with a scientifically constructed military framework with which to meet the contingencies of the future. These two objects can, in practice, be attained by the same policy.

In estimating how Germany may most rapidly be defeated, we have once more to differentiate between military and non-military means. There is no question but that Germany is at her weakest on the non-military side—in her economic situation, in her system of alliances, and so on. On the military side she still retains a very appreciable superiority over her opponents. There is no measure within our power that can for some time alter that fundamental fact. And our action cannot be thought of, in terms of six, 12 or even 18 months, as anything beyond assisting the allies.

To assist the allies means to place forces on the western front. I am inclined to believe that we may possibly see the western front extended toward the north this summer. And in this case the British war department might have to revise its plans and might have a legitimate claim to assistance from us. But apart from such developments, there can be no possible question but that any troops we can send to support the western front should go to the French and not to the British. There are positive reasons against sending them one way and for sending them the other.

In modern theories of the conduct of war, just as in the conduct of big business enterprises, the greatest stress is laid on economy of effort. The British conduct of operations has flagrantly disregarded this principle, and especially on the western front. The accumulation of British troops in France has not produced commensurate military profits, while on the other hand it has been a great drain on tonnage and on man power. For us to offer to send troops to this part of the western front would imply the least effective employment of our manpower, tonnage, and resources.

Turning to the French side we have a different picture. What the manpower statistics are, I will not guess; the French government has screened them too jealously. But no one can doubt from the large use of African troops, and the effort to get Japan and Portugal to send contingents, that the French government is pressed harder than any other by the manpower problem. And the symptoms are strong that this problem will be even more acute six months hence than it is now. Under those circumstances it is beyond doubt that we can render the greatest service to the allied governments by offering our troops to France.

But there is another range of reasons leading to the same conclusion. Which course would most help us to create a good military organization, to offer our troops to England or to France?

AMERICA'S entry into the war leaves only South America, Mexico and Central America, China, Siam, Afghanistan, Persia, Arabia, Liberia, Abyssinia, Greece, Spain, Switzerland, Holland and the Scandinavian countries at peace. And all these old world countries have intimate knowledge of war's presence, through stoppage of commerce, battles on the border, or presence of belligerent troops in neutral territory. On this map the countries remaining neutral are white.

to employ brigades, divisions and corps tactically—and only about 10 per cent of general officers having much theoretical knowledge of the matter. And this is not the whole indictment either.

Under these circumstances a secretary of war knowing anything of his job would do well to put the national pride in his pocket, and suggest to the French government that the troops sent to France should be placed under French divisional officers. And that the French war department should run an instruction course for as many field and general officers as we chose to send over.

This seems an extreme policy. But it would put us five years forward in our military organization. Look at the case of Japan. With a splendidly trained and large army, she refuses to send troops to Europe. But 8,000 of her officers, paid by the allies, are learning at the front all that can be learned of the new art of war. Can we afford to be less provident and businesslike than Nippon?

CLEAR YOUR SKIN IN SPRING
 Spring house cleaning means cleaning inside and outside. Dull, pimply skin is an aftermath of winter inactivity. Flush your intestines with a mild laxative and clean out the accumulated wastes; easy to take; they do not gripe. Dr. King's New Life Pills will clear your complexion and brighten your eye. Try Dr. King's New Life Pills tonight and throw off the sluggish winter shell. At druggists', 25c.

CAPT. L. S. D. O. F. F. T. T. De O. P. TOLLEMACHE-TOLLEMACHE IS SLAIN

LONDON, April 3.—The death at the front is announced of Captain L. S. D. O. F. F. T. T. De O. P. T. Tollemache. He was an officer in a Leicester regiment. His full name was Leone Sextus Denys Oswolf Fraudati Filius Tollemache-Tollemache de Orellana Plantagenet Tollemache-Tollemache.

His claim to fame included the fact that he was the brother of Miss Mabel Ethel Helmingham Huntingtower Beatrice Blaz Onberrie Evangeline Vise de Lou de Orellana Plantagenet Saxon Toedmag Tollemache-Tollemache, and another sister who was Mathilda Dora Ida Agnes and eleven other names.

INDIANS OF ARIZONA READY TO ANSWER WAR CALL OF PRESIDENT

LOS ANGELES, April 2.—Ready to fight for Uncle Sam at the slightest suggestion that they are wanted, several thousand Papagos, Pimas and Apaches of the Arizona Indian reservation are awaiting the call. C. R. Olberg, superintendent of tri-

gation for the Indian service in Arizona, has brought this information to Los Angeles, it having been given to him by the superintendent of the Arizona reservations.

Particularly useful would the Indian troops be in case of any trouble from German-Mexican sources. Their knowledge of the type of country of which Northern Mexico is formed, would make them especially valuable, not to mention their fighting qualities. This fact was amply demonstrated in the recent mobilization of troops on the Mexican border. The Papagos guarded the border alone from a point a little west of Nogales to the Colorado river. And they made a good job of it. It is said several Mexicans received invitations to early morning hangings, the Mexican being the guest of honor.

GLAD TO LEARN OF IT
 —April's changeable weather causes colds that lead to expensive doctor bills—bills that could be avoided if the cold were checked in time. C. Smith, 141 12th St., Augusta, Ga., writes: "I got one bottle of Foley's Honey and Tar and my cough is about well. I was glad to learn of a great medicine like that." Foley's Honey and Tar enjoys such a splendid reputation that it is often imitated. Of course, no substitute or imitation is as good as the genuine. Rowley Drug Co.

BARRING DOGS FROM HOTELS AT ATLANTIC CITY PEEVES SOCIETY

ATLANTIC CITY, April 3.—A terrible blow has been dealt that high and cosmopolitan society which gathers at this time every year to swarm the Boardwalk Easter Sunday. Hotel men have organized and declined to allow suites to plutocratic pups.

This horrible edict is taken by the aristocrats as a direct affront. But the hotel men are adamant. No dogs! And that goes! Curs, poodles and fancy specials are all relegated to a common, rough general kennel, where they must be checked, like umbrellas and hats, if you please.

Each hotel has employed a kennel keeper and matron for the canine nursery. When Fido has his air on the Boardwalk he must be unchecked and led about by his master. But she must not lead him into the hotel. Not even up on the front porch.

Freak gowns and the usual fancy dresses of society are here in plenty but they're under cover until the dawn of Sunday morning. The hotels have been crowded to capacity for more than a week. Some suites rent for \$100 a day. The city expects to have a population of 200,000 during the celebration Easter Sunday.

BY AIR

2000 AVIATORS NEEDED TO MAN AIR DEFENSES IS OPINION

\$50,000,000 Is Necessary to Build Stations and Equipment, Says Authority

BY ALAN R. HAWLEY
 President of the Aero Club of America and Head of the Aerial Reserves of the Third Naval District
 (Written Especially for this Newspaper)

War will thrust a tremendous burden upon our slender air resources. We have at present about 200 trained

aviators in the army and navy, and among the tasks that devolve upon them are training other aviators and doing technical and workshop duties. In the first few months of war these 200 airmen will have the sole responsibility of patrolling the Atlantic coast. Every body knows that the first blow struck by Germany will be with submarines. And seaplanes are an absolutely essential part of anti-submarine warfare and in the work of locating mines.

For the upbuilding of our defense we shall have to train and equip immediately 1,000 aviators and 1,000 operators of observation balloons. To train these 2,000 airmen will need 20 permanent aviation stations for the army and 10 permanent aerostatic (kite and dirigible) stations, and at least one aero station for each of the 15 naval stations. These aeroplanes are necessary for every aviator. For the purchase of grounds and the equipping of the 20 stations there is needed about \$20,000,000, and for the purchase of 3,000 aeroplanes, \$30,000,000.

In the possibility of the United States sending an expeditionary force to Europe a big flying corps will have to accompany it. Artillery nowadays is practically useless without range-finding air-scouts.

Also if the United States fleet is sent across the Atlantic it will be suicidal to dispatch it without first providing it with "aerial eyes." There should be an aeroplane ship and an observation balloon ship to every eight battleships.

Bargains In Used Automobiles

HOW TO SELECT FOODS

How to Tell Whether the Family is Getting Enough of the Proper Food—Home Economics Specialists of the U. S. Department of Agriculture Suggest the Health and Appearance of the Family Are a Good Test of the Wholesomeness of Their Diet—Food Prejudices Often Block Effective Saving.

WASHINGTON, April 2.—The health and appearance of the family are a good test of the wholesomeness of their diet, according to the U. S. Department of Agriculture Farmers' Bulletin 808, on How to Select Foods. If they are strong, well-developed for their ages, free from ailments, and full of energy and ambition, one may safely say their food agrees with them. But if they are listless and ailing, or not as well developed either physically or mentally as they should be, and if a competent physician finds that there is no special disease to account for these bad symptoms, a mother may well ask herself if the food is right, and if not, how she can make it so. If a little too much or too little of one nutrient is provided at a single meal or on a single day, a healthy

body does not suffer, because it has ways of storing such a surplus and of using its stored material in an emergency. The danger would come if the diet taken week in and week out always provided too much or too little of some one nutrient.

Habit and custom help greatly, because they usually are based on what the experience of generations has proved is wise and healthful, though, of course, there are bad habits and outgrown customs in food as in everything else. Good habits, it must be remembered, include more than cleanliness and order in everything that has to do with food and meals, and leisurely ways of eating. Equally important are a liking for all kinds of wholesome foods, even if they have not always been used in one's home or neighborhood, and eating reasonable amounts, without being either greedy or overindulgent. Every effort should be made to train children in such good food habits. If older people have not learned them, they, too, should try to do so, for such things are very important not only to health but also to economy.

To refuse to eat some wholesome dish is simply because one is not accustomed to it may prevent the use of some very desirable economical food. To feel that there is any virtue in providing more food than is needed shows poor taste as well as poor economy.

Getting the Most Food for One's Money

Use cereals (flour, meal, cereal breakfast foods, etc.) freely, taking pains to prepare them with great care and to vary the kind used from day to day if necessary to keep people from tiring of them.

Remember that a quart of whole milk a day for each child, to be used as a beverage and in cookery, is not too much.

Plan carefully both in buying and in serving.

Do not be ashamed to plan closely.

Thrift in food means providing enough food, neither too little nor too much. Notice carefully how much of such staples as flour, sugar, milk, cooking fat, etc., is used each week for a month, and see if there are any ways of cutting down the quantity needed. Buy non-perishable materials in quantities if better prices can be secured and there is a good storage place in the home. Neighbors can sometimes club together to get lower rates.

Estimate carefully how much of any material will be needed before laying in a supply, then see that none is wasted by careless handling.

Try to make the dishes served of such size that there will be enough to satisfy the appetite of the family and no unnecessary table and plate waste. Do not be above noticing whether anything usable is thrown away with the garbage, which always shows how thriftfully food is used in a household. Many inexpensive materials can be made attractive and the diet can be pleasantly varied by a wise use of different flavorings.

"Finicky" tastes in food often prevent the use of many valuable materials which might be the means of saving money.

Good food habits are an important part of personal hygiene and thrift. Children get such habits by having suitable amounts of suitable foods served to them and then being expected to eat what is set before them. True economy lies not only in buying wisely but also in making the fullest possible use of what is bought. (Subsequent articles in this series will be submitted later.)

BEEF GROWERS ORGANIZE

Pomona Progress:—Fourteen prominent sugar beet growers in the China district held a meeting at the Chamber of Commerce office in this city Wednesday evening and organized a Beet Growers' association. E. V. Wire is president and D. E. Bickmore is vice president. The idea is to bring the grower and manufacturer in closer touch.

Recklessness

"Charley, dear," said young Mrs. Torkins, "the baby next door swallowed a quarter."

"It won't hurt the child."

"I know. But isn't it terrible how careless some people are with money?"—Washington Evening Star.

PIPE ORGAN AND REMODELLING OF CHURCH POSSIBLE

Member of Christian Church Makes Liberal Offer to Members, Congregation

A new pipe organ and enlargement of the First Christian church edifice at the corner of Broadway and Sixth streets are in prospect. The success of the plans now under consideration are contingent upon the liberality of the congregation of the church.

One of the wealthy members of the church has submitted a proposition to the official board that he will give the pipe organ if the congregation will subscribe funds for enlarging the church and wiping out the church debt.

The offer has just been made and while the board has not as yet had time to mature plans for alterations and improvements in the building, it has made tentative plans which will call for an expenditure of about \$5000. The church debt is \$2000. This means the congregation will have to subscribe in the neighborhood of \$7000.

In the enlargement of the building, an additional story will probably be added, and the main structure extended forward to the sidewalk on Broadway. The space is now planted to blue grass. A larger auditorium would be provided, and an up to date primary room added and a larger and more commodious ladies' parlor provided. The improvements may also include a large social room.

The official board has taken hold of the proposition with an earnestness and enthusiasm that indicates success. T. D. Knights, chairman of the board, will select a building committee, and later a committee will be named to have charge of the campaign for raising the fund necessary for the church to avail itself of the liberal offer of the member who will present the pipe organ under the conditions named.

Rev. Lloyd Darsie, who has just taken up his labors here as pastor of the church, has a reputation for getting whatever he goes after. He has been in many similar campaigns and the campaign committee will have the advantage of his experience and advice.

LONDON ARCHDEACON GLAD BRITAIN FAILED TO WIN EASY VICTORY

LONDON, April 2.—Archdeacon Wakeford is one of those who believe the present war is God's punishment on a people that was headed for damnation through luxury, materialism and social iniquity. An easy victory, he says, would have made England the rottenest nation in the world. He is glad she did not win it.

T. R. NOT INVITED TO ST. LOUIS MOOSE MEET

ST. LOUIS, April 3.—Universal military training, nation-wide prohibition and the unity of liberals of all parties will be the chief aim of the Progressive party's national conference here next Thursday. Colonel Roosevelt has not been and will not be invited to attend.

Plans today were under way to have committees of the Democratic, Republican, Socialist and Prohibition parties confer with a committee of the Bull Moose and discuss the formation of a party of Liberals to stir the political pot of the country into real boiling condition.

Albert D. Norton, once a Republican judge, later Progressive gubernatorial candidate in Missouri and during the last presidential campaign connected with the Wilson Speaking bureau, is a leader in the conference.

KEEP URIC ACID OUT OF JOINTS

Tells Rheumatism Sufferers to Eat Less Meat and Take Salts

Rheumatism is easier to avoid than to cure, states a well-known authority. We are advised to dress warmly; keep the feet dry; avoid exposure; eat less meat, but drink plenty of good water.

Rheumatism is a direct result of eating too much meat and other rich foods that produce uric acid which is absorbed into the blood. It is the function of the kidneys to filter this acid from the blood and cast it out in the urine; the pores of the skin are also a menace of freeing the blood of this impurity. In damp and chilly cold weather the skin pores are closed thus forcing the kidneys to do double work, they become weak and sluggish and fail to eliminate the uric acid which keeps accumulating and circulating through the system, eventually settling in the joints and muscles causing stiffness, soreness and pain called rheumatism.

At the first twinge of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is said to eliminate uric acid by stimulating the kidneys to normal action, thus ridding the blood of these impurities.

Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia and is used with excellent results by thousands of folks who are subject to rheumatism. Here you have a pleasant, effervescent, lithia-water drink which helps overcome uric acid and is beneficial to your kidneys as well.—Advertisement.

NUEVO Ranch

READ A. L. Carter's Statement below

Gentlemen:

I came here from Santa Ana 14 months ago and bought 40 acres. The type of land I bought here would be worth \$500 an acre or more in the Santa Ana district. The soil is of great depth and easy to work, and there is no hardpan. I don't believe there is a better potato, olive, peach or apricot country anywhere. I have grown potatoes here in 90 days that have brought a fancy price. On a single acre last season I raised about \$200 worth of mellons and some of them weighed 20 pounds apiece. This valley has a wonderful future and the strongest endorsement it could have is the fact that it is being rapidly settled up almost exclusively by ranchers from Orange County.

(Signed) A. L. CARTER.

A Few Plain Facts About Nuevo Ranch District

Do you know that there is a beautiful, rapidly developing valley with "Orange County farming advantages" just two hours auto ride from Santa Ana?

Do you know that the San Jacinto Valley is being settled and developed almost entirely by former Orange County ranchers?

Do you know that the same ground-floor opportunities that existed in Orange County 20 years ago, prevail today at Nuevo Ranch?

Do you know that unimproved land in the Hemet Valley (practically adjoining Nuevo Ranch) is held at \$400 to \$500 an acre, and improved lands sell for as high as \$1,500 an acre? Do you know that Nuevo Ranch is the "last of its type" in Southern California at \$250 an acre? Do you know that the best olive, apricot, peach and walnut land in the Southwest is at Nuevo Ranch?

When scores of men who have farmed successfully in Orange County from 10 to 20 years sell their holdings and choose the Nuevo district for themselves and their children—don't you think there must be good and sufficient reasons?

Every farmer and orchardist in Orange County should immediately investigate Nuevo Ranch, with its high, healthful elevation, its deep, rich, uniform soil, its money-making crops, its splendid water system and its unusual investment possibilities. Every acre is destined to go to five hundred dollars.

Send for new illustrated booklet (now in preparation) which will contain signed statements of many former Orange County ranchers who have located at Nuevo Ranch.
